## **Excel 2016 For Seniors The Complete Guide:**

**Excel 2016 for Seniors** Stewart Melart, 2015-10-29 Microsoft Excel 2016 is a part of the Microsoft Office 2016 suite. In many circles it is simply referred to as Office 2016. This software is the latest release in the series of the Excel software that will replace Office 2013 for the PC and Office for Mac 2011. It was first released for the OS X software and was designed for Office 365, which is how Microsoft now distributes the Office products. As with any new release of a software, there are many new features that improve the overall user experience. The improved Excel 2016 is considered to be smoother and very user friendly for even users who are not tech savvy. This is in relation to the improved menu layout and ability to use common functions that basic users are familiar with. The software can now do even more complicated calculations with greater productivity that advanced users can appreciate. This helps average users to put their data in an easy way that they can understand, manage, and share.

**Excel 2016: The Complete Guide** Stewart Melart, 2015-10-15 Microsoft Excel 2016 is one of the products offered in the new Microsoft Office 2016, dubbed Office 16. Designed to replace the previously released Office 2013 and Office for Mac 2011, the product was first released to the public in July of 2015. The initial release was on the OS X software designed for users of Office 365, with the licensed version becoming available by mid-September of the same year. Among the new features is the animated effect now included when making cell selections or highlighting content to share across cells. The effect is now smoother and thus more user friendly. Excel 2016 is able to boast compatibility with the basic keyboard shortcuts previously found in Microsoft Word. Users will be able to apply shortcuts like Ctrl P and Ctrl C to complete simple copy and paste functions. The status bar has now also been colorfully modified, while the Tables ribbon has been redesigned.

**Microsoft Powerpoint 2016: The Complete Guide** Alexander Herolson, 2015-11-12 PowerPoint 2016 is a presentation program that presents information in the form of slides. This program is developed by Microsoft and was originally called Presenter, released by another company, Forethought Inc. It was originally launched in May 1990 and has always been a part of the Microsoft Suite. It is popularly known as a program that helps users to develop slide-based presentations and is currently the most used presentation program in the world. The purpose of this guide is to introduce users to the latest version of the Microsoft PowerPoint program. Reviews on the newest issue purport that it is new and improved, boasting redesigned and creative features. The manual will first look at the genesis of the program's manufacturer, Microsoft Inc. The Microsoft Office suite and its foundation and subsequent growth will then be discussed, followed by growth of the actual PowerPoint program.
