Exotic Nations Renata Ruth Mautner Wasserman, 1994 In this highly original and critically informed book Renata R Mautner Wasserman looks at how during the first decades following political independence writers in the United States and Brazil assimilated and subverted European images of an exotic New World to create new literatures that asserted cultural independence and defined national identity *Exotic Nations* demonstrates that the language of exoticism thus became part of the New World s interpretation of its own history and natural environment

The Best Books William Swan Sonnenschein,1887 *Representing the Exotic and the Familiar* Meenakshi Bharat,Madhu Grover,2019-11-28 The multicultural world of today is often said to be marked by a certain kind of exoticization a fetishizing process as Graham Huggan has called it which separates a first world from a third world the Occident from the Orient The essays collected here re assess this tendency not least by focusing on the kinds of intellectual tourism and dilettantism to which it has given rise The wider context of these analyses is a postcolonial scenario where literatures and languages can move from the exotic to the comparatively familiar space of contemporary writings where an exotic mythos can live on into the familiar present and where certain perceptions and representations of peoples of literatures and of languages have turned exoticization and familiarization into global modes of mass cultural consumption Especially by exploring the liminalities between different cultures this collection manages to trace both the history and the politics of exoticist representation and in so doing to make a significant critical intervention **Fantasy Islands** Wade T. Wilson,1999-06 If you re an adventurer in search of romance or a wife from a distant land *Fantasy Islands A Man s Guide to Exotic Women and International Travel* is for you **The Exotic Enchanter** L. Sprague de Camp,Christopher Stasheff,1995-05-01 Harold Shea the incomplete Enchanter and his partner Reed Chalmers leap into the Russia of Prince Igor where warriors pursue them through an Arabian Nightmare To escape they leap into the universe of Edgar Rice Burroughs and are chased to their next port of call Shakespeare s *The Tempest* At the publisher s request this title is sold without DRM Digital Rights Management **Book Buyer** ,1903 **Exotic** Judy Sund,2019-03-27 A fascinating survey of the enduring human love affair with the exotic and the strange and its impact on Western culture *Exotic* explores our obsession with the lure of distant lands and their promise of the weird and wonderful the beautiful and grotesque Through a host of evocative images this book shows how the absorption of the foreign through arts design architecture and other cultural elements has consistently enriched Western society contributing to it cultural dynamism and artistic energy *Exotic* s focus is especially relevant to the modern globalized world in which our engagement with cultures and traditions from around the globe is easier and potentially more fraught than ever before **Strange and Wonderful** Karen Polinger Foster,2020-05-04 Ever since the creation of the world s first zoological and botanical gardens 5 000 years ago people have collected displayed and depicted animals and plants from lands far beyond their everyday experience *Strange and Wonderful* offers a richly illustrated journey across millennia and around the globe to explore the root of this phenomenon in art

Menagerie Caroline Grigson,2016 *Menagerie* is the story of the panoply of exotic animals that were brought into Britain from time immemorial until the foundation of the London Zoo a tale replete with the extravagant the eccentric and on occasion the downright bizarre From Henry III s elephant at the Tower to George IV s love affair with Britain s first giraffe and Lady Castlereagh s recalcitrant ostriches Caroline Grigson s tour through the centuries amounts to the first detailed

history of exotic animals in Britain On the way we encounter a host of fascinating and outlandish creatures including the first peacocks and popinjays Thomas More s monkey James I s cassowaries in St James s Park and Lord Clive s zebra which refused to mate with a donkey until the donkey was painted with stripes But this is not just the story of the animals themselves It also the story of all those who came into contact with them the people who owned them the merchants who bought and sold them the seamen who carried them to our shores the naturalists who wrote about them the artists who painted them the itinerant showmen who worked with them the collectors who collected them And last but not least it is about all those who simply came to see and wonder at them from kings queens and nobles to ordinary men women and children often impelled by no more than simple curiosity and a craving for novelty **The New International Year Book**,1913 **The New International Year Book** Frank Moore Colby,Allen Leon Churchill,Herbert Treadwell Wade,Frank H. Vizetelly,1911
