FASCISM

A Very Short Introduction

OXFORD

Fascism A Very Short Introduction

Judd E. Hollander

Fascism A Very Short Introduction:

Fascism Kevin Passmore, 2014-05 Kevin Passmore shows how fascism used and uses propaganda and popular culture to propagate itself and how it exported its ideas outside Europe through Nazi and Spanish post war escape routes to Latin America for instance *Using Political Ideas* Barbara Goodwin, 2016-12-19 *Using Political Ideas* is a unique blend of political philosophy political theory and history of political thought It combines a critique of the major ideologies of recent and contemporary society with an analysis of the ideas that form the very stuff of political debate By exposing the interplay between ideas and ideologies it shows why political opponents often speak at cross purposes and why rational agreement is so hard to achieve in politics The sixth edition of this well respected and widely known text will be welcomed by those interested in questions such as Is equality more important than personal freedom Does the majority have the right to dictate to the minority in multicultural society Is nationalism a progressive force in the world Politics does not stand still there are always new controversies and ideological conflicts and the climate of discussion changes The 6th edition of this best selling book is fully updated and includes a new chapter on authoritarian ideologies to reflect the growing extreme right wing politics in parts of Europe This edition also provides a variety of new learning features a comprehensive glossary detailed lists of further reading and a list of questions for discussion **British Fascist Antisemitism and Jewish Responses, 1932-40** Daniel Tilles, 2014-11-20 This book explores the use of antisemitism by Britain's interwar fascists and the ways in which the country's Jews reacted to this examining the two alongside one another for the first time and locating both within the broader context of contemporary events in Europe Daniel Tilles challenges existing conceptions of the antisemitism of Britain's foremost fascist organisation the British Union of Fascists He demonstrates that it was a far more central aspect of the party's thought than has previously been assumed This in turn will be shown to be characteristic of the wider relationship between interwar European fascism and antisemitism a thus far relatively neglected issue in the burgeoning field of fascist studies Tilles also argues that the BUF's leader Sir Oswald Mosley far from being a reluctant convert to the anti Jewish cause or simply a cynical exploiter of it as much of the existing scholarship suggests was aware of the role antisemitism would play in his fascist doctrine from the start and remained in control of its subsequent development These findings are used to support the notion that contrary to prevailing perceptions Jewish opposition to the BUF played no part in provoking the fascists adoption of antisemitism Britain's Jews did nevertheless play a significant role in shaping British fascism's path of development and the wide ranging and effective anti fascist activity they pursued represents an important alternative narrative to the dominant image of Jews as mere victims of fascism **The Palgrave Encyclopedia of Global Security Studies**, 2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world

Thunder Cross Paula A. Oppermann, 2025 Founded in 1932 Thunder Cross P rkonkrusts was the largest and most prominent right wing political party in Latvia in the early twentieth century Its motto Latvia for Latvians echoed the ultranationalist rhetoric of similar movements throughout Europe at the time Unlike the Nazis in Germany or the Fascists in Italy however Thunder Cross never succeeded in seizing power Nevertheless Holocaust historian Paula A Oppermann argues its movement left an indelible mark on the country The antisemitism at the core of Thunder Cross s ideology remained a driving force for Latvian fascists throughout the twentieth century persisting despite shifting historical and political contexts Thunder Cross is the most comprehensive study of Latvia s fascist movement in English to date and the only work that investigates the often neglected continuities of fascist antisemitism after World War II Formulated as an empirical case study this book draws on international and interdisciplinary secondary literature and sources in seven languages to broaden our understanding of fascism antisemitism and mass violence from Germany and Italy to the larger European context **From Hitler to Codreanu** Carlos Manuel Martins, 2020-12-30 This book examines fascist ideology in seven leaders of parties and movements in the interwar period It makes use of the conceptual morphological approach focused on core and adjacent concepts as well as on the interlinkages between them With such an approach the book seeks to offer an innovative perspective on fascism and arrive at a conceptual configuration of fascist ideology capable of highlighting its main concepts and combinations Furthermore it examines the major texts of seven leaders from Germany Italy the UK Portugal Spain France and Romania Adolf Hitler Benito Mussolini Oswald Mosley Rol o Preto Primo de Rivera Marcel D at and Corneliu Codreanu With the conceptual approach the book reasserts the possibility of finding a definition of generic fascism at the same time as depicting the ideological varieties espoused by each leader This title will be of interest to students and scholars of fascism extremism and the far right **Aging A-Z** Carroll L. Estes, with Nicholas B. DiCarlo, 2019-04-10 This provocative intellectually charged treatise serves as a concise introduction to emancipatory gerontology examining multiple dimensions of persistent and hotly debated topics around aging the life course the roles of power politics and partisanship culture economics and communications Critical perspectives are presented as definitions for reader understanding with links to concepts of identity knowledge construction social networks social movements and inequalities With today s intensifying concentration of wealth and corporatization precarity is the fate for growing numbers of the world s population Intersectionality as an analytic concept offers a new appreciation of how social advantage and disadvantage accumulate and how constructions of race ethnicity class ability and gender influence aging The book s entries offer a bibliographic compendium crediting the salience of early pioneering theorists and locating these within the cutting edge of research social behavioral policy and gene environment sciences that currently advances our understandings of human development trauma and resilience Accompanying these foundations are theories of resistance for advancing human rights and the dignity of marginalized populations *Searchlight* , 2003 [A History of Political Thought](#) Bruce Haddock, 2008-09-22 This book is a

comprehensive introduction to the history of political thought tracing the development of arguments and controversies from ancient Greece through different forms of community state and empire to today's global concerns Bruce Haddock highlights the bewildering variety of contexts that have framed political thinking yet also displays structural features that have proved to be remarkably stable over time An important theme in the book is the need to see political philosophy even in its most abstract formulations as a response to historically contingent circumstances without limiting its relevance to those circumstances The emphasis throughout is on political thinking as a response to hard choices Major thinkers covered include Plato Aristotle Augustine Aquinas Machiavelli Grotius Locke Spinoza Montesquieu Hume Kant Rousseau Burke Hegel Marx Mill Lenin Schmitt Nietzsche Foucault Oakeshott and Rawls The book treats political philosophy and theory as a tentative engagement with a fractured and controversial past Yet political thinking remains the exercise of a burden of a responsibility that is inescapable for us Haddock introduces a history that continues to shape our understanding of ourselves as political and historical creatures *A History of Political Thought* will be of interest to students and scholars of politics history and philosophy

The SAGE Handbook of Political Sociology, 2v William Outhwaite, Stephen Turner, 2017-10-30 The SAGE Handbook of Political Sociology offers a comprehensive and contemporary look at this evolving field of study The focus is on political life itself and the chapters written by a highly respected and international team of authors cover the core themes which need to be understood in order to study political life from a sociological perspective or simply to understand the political world The two volumes are structured around five key areas PART 1 TRADITIONS AND PERSPECTIVES PART 2 CORE CONCEPTS PART 03 POLITICAL IDEOLOGIES AND MOVEMENTS PART 04 TOPICS PART 05 WORLD REGIONS This future oriented and cross disciplinary handbook is a landmark text for students and scholars interested in the social investigation of politics

Political Ideologies Andrew Heywood, 2012-04-15 A clear and accessible introduction to the political creeds and doctrines that have dominated and shaped world politics The fifth edition has been thoroughly updated throughout and now has more on the influence of globalization on ideology and a new look page design to aid student learning

Eye, 2004

Milestone Documents in World History, 2010 Contains thirty three full text primary source documents that provide insights into important events in world history each with an overview context time line biographical profile of the author explanation and analysis quotes and other resources arranged chronologically from 1839 to 1941

Human Rights Regimes in the Americas Mónica Serrano, Vesselin Popovski, 2010 The Americas have witnessed considerable progress in the field of human rights Although painful legacies persist large scale systematic human rights violations of the kind common during Latin America's dictatorships are hopefully never to return Yet abuses of rights and challenges to the rule of law have not disappeared completely but rather taken on a different and elusive character At the same time the relatively good records of the developed North American countries continue to be undermined by their inconsistent approaches both at home and abroad

Human Rights Regimes in the Americas

Modern Japan: A Very Short

Introduction Christopher Goto-Jones,2009-04-23 Japan remains something of an enigma to many a confusing montage of the alien and the familiar This Very Short Introduction explodes the myths and explores the reality of modern Japan offering a concise engaging and accessible look at the history economy politics and culture of this fascinating nation It examines what the term modern means to the Japanese debunks the notion that Japan went through a period of total isolation from the world and explores the continuity between pre and post war Japan **Outlaws, Fakes and Monsters** Chris Boge,2009

Bulletin ,2007 *Current Contents* Institute for Scientific Information (Philadelphia),2003 *Nations and Nationalism* Guntram H. Herb,David H. Kaplan,2008-05-22 Nations and Nationalism helps students researchers and other interested readers explore national identities and nationalistic movements in historical context Organized chronologically its four volumes combine thematic essays on different characteristics of nationalism with case studies of key historical developments involving specific nations at specific times The encyclopedia focuses on Europe Latin America Africa and Asia with featured coverage of nationalist cultural creations including literature music symbols and mythologies **The British National**
