Doran's dedication to accuracy and detail makes this book an invaluable resource. I was completely absorbed by the vivid descriptions and rich historical context. Highly recommended for anyone passionate about British history. An impressively detailed and thoroughly researched account of London during the Jacobite era. The narrative is engaging, although some sections felt a bit too academic for my taste. Still, it's a fascinating look into a pivotal time in London's history. Dr. Doran's ability to transport readers to 18th-century London is remarkable. The intertwining of personal stories and political upheavals made for an intriguing read. A bit dense at times, but overall a rewarding journey through history. While the book offers a wealth of historical detail, it sometimes felt overwhelming. I would have appreciated a more balanced mix of storytelling and analysis. Nevertheless, it's a solid read for dedicated history buffs and scholars. *Prague* Noemi Tranchina, 2025-07-03

Clay, Robinson & Company's Live Stock Report, 1909 Country Life in America, 1914 Rules and Rule Markup Languages for the Semantic Web Michael Schroeder, Gerd Wagner, 2003-11-26. RuleML 2003 was the second international workshop on rules and rule markup languages for the Semantic Web, held in conjunction with the International Semantic Web Conference (ISWC). The aim of the RuleML workshop series is to stimulate research on all issues related to web rule languages and to provide an annual forum for presenting and discussing new research results. The Semantic Web is a major world-wide endeavor to advance the Web by enriching its multimedia document content with propositional information that can be processed by inference-enabled Web applications. Rules and rule markup languages such as RuleML will play an important role in the success of the Semantic Web. Rules will act as a means to draw inferences, to express constraints, to specify policies for reacting to events, to transform data, etc. Rule markup languages will allow us to enrich Web ontologies by adding definitions of derived concepts, to publish rules on the Web, to exchange rules between different systems and tools, etc. RuleML 2003 built on the success of RuleML 2002, which was held in conjunction with ISWC 2002, Sardinia, Italy. The proceedings of RuleML 2002 can be found at <http://www.ceur-ws.org>. Vol. 60. Special highlights of the RuleML 2003 workshop were the two invited presentations given by Peter Chen on Rules XML and the ER Model, and by Harold Boley on Object-Oriented RuleML.
