from professional societies *Safety and Improvement in Primary Care* Paul Bowie, Carl De Wet, 2014 In recent decades

most of the international effort given over to studying and improving the safety of patient care has been focused in acute
hospital settings To some extent this was always something of a puzzle to those of us with a direct interest in this important
issue Now however the tide is slowly turning Policymakers healthcare leaders and research grant funders are beginning to
recognise that greater evidence is required to understand more about what can and does go wrong in primary care with
increasing attention now being paid to what can be done to minimise avoidable harm to patients in this setting From the
Preface This remarkable new book represents a substantial body of work led by key educators and researchers devoted to
learning about and improving the safety of primary healthcare It offers highly practical guidance and evidence for a broad
range of related improvement methods concepts and interventions developed and implemented by the NES primary care
team or as a direct result of fruitful partnerships between academic professional public or regulatory institutions across the
UK and internationally Skillfully presented the book is organised into five interlinked parts each with a number of related
chapters *Safety and Improvement in Primary Care The Essential Guide* is ideal for frontline clinicians managers and
