Bahar, Syubatul Wathon, Kartika Senjarini, Asep Ginanjar Arip, Ramdhan Putrasetya, Beny Andika, Nadhea Ayu Sukma, 2023-02-10 This is an open access book We are pleased to invite you to participate in the 4th International Conference on Life Sciences and Biotechnology Towards Sustainable Development Application of Biosciences to Improve Welfare and Quality of Life The International Conference which will be held on by The Department of Biology Faculty of Mathematics and Natural Sciences University of Jember November 15 16 2021 The 1st 2nd and 3rd ICOLIB had been successfully held in 2015 2017 and 2019 in University of Jember respectively This year s conference will be held virtually and present some outstanding speakers coming from Indonesia Germany Nederland The United States of America and South Korea **Diseases at the Wildlife - Livestock Interface** Joaquín Vicente, Kurt C. Vercauteren, Christian

Gortázar, 2021-04-29 Shared diseases among wildlife livestock and humans often transboundary are relevant to public health and global economy as being highlighted currently relative to the global COVID19 pandemic Diseases at these interfaces also impact the conservation of biodiversity and must be considered when managing wildlife While wildlife and domestic livestock have coexisted in dynamic systems for thousands of years spillover disease risks are higher today than in the past due to global patterns of increasing close contact and interactions among wildlife livestock and humans in the context of complex diverse and numerous circumstances Multidisciplinary studies of animal interfaces especially those involving wildlife therefore must be brought to the forefront so that knowledge gaps can be realized and filled to inform managers and policy makers In the first part of the book authors illustrate and discuss ecological and epidemiological concepts related to the

interfaces with a vision towards socio ecological system health In addition the history of past animal interfaces provides the necessary perspective to focus current questions better understand present situations and informs how we can best approach the future The second part discusses the myriad of similar and differing wildlife livestock interfaces found around the world from a regional point of view The third part focuses on how to assess the spatial and temporal overlap between livestock and wildlife and authors present new technical innovations about how inter transmissions between wild and domestic populations can be quantified An overview of main modeling approaches available to quantify multi host disease transmission at the wildlife livestock interface illustrated with specific case studies is also presented Finally the need for interdisciplinary approaches and a dedicated thematic field to approach the wildlife livestock interfaces and create opportunities to promote wildlife livestock coexistence is emphasized The concluding chapter presents perspectives and directions to better understanding disease dynamics at the wildlife livestock interface global change and implications for the future The changing distribution of interfaces ongoing human and environmental changes e g climate warming changes in animal production systems etc and their likely impacts and consequences for the interfaces and disease transmission processes are all discussed

Cattle Breeds of the World Marleen Felius,2024-12-02 The origin and evolution of cattle breeds was long explained only by historical sources with questionable reliability In recent years genetic and molecular data have become available that shed new light on this revealing how from neolithic times breeds emerged by migratory movements and mutual influencing of gene pools But while molecular breed characterization is now rapidly advancing phenotypic characterization remains under explored This publication presents a classification of around 1 000 cattle breeds based on geographical and historical data and morphology Males and females of every breed are portrayed by the author in water colour and to scale The illustrations are positioned next to each breed s description completing the overall image Improving organic animal farming Dr Mette Vaarst,Dr Stephen Roderick,2019-03-07 Reviews key challenges and solutions in improving the health and welfare of organic farm animals Addresses how organic livestock farming can build on smallholder systems such as pastoralism and agroforestry Includes case studies on improving organic farming of dairy and beef cattle sheep and goats pig and poultry
