

The American Civil Rights Movement

Subject of Assignment: The American Civil Rights Movement

1.) Now that you have learned the basics of American civil rights struggle from the beginning of the nation up to the Black Lives Matter movement, what are some of your thoughts about the struggles in the United States verses similar struggles in other countries that you know of?

American civil rights movements and Black Lives Matter was and is a big and significant movements. And I have been thinking about this question for days, and so far, the other struggles or movements I can think of were the Hongkong riots, Chinese Covid 19 protests and their lock down in country's border, city, hospital, and self-quarantines. Also, the Korean war and the Japanese border invasions, which was a relatively a great struggle to their nations. I think both USA and south Korea or any other east Asian countries like Vietnam, Nepal, India and Pakistan (civil war) and Afghanistan suffered a great loss of money, lives, trusts and relationships between civilians and the leaders. These countries and USA fought for equality, freedom, human rights, equal institution, fair labor and minimum wage for a better life and better environments.

2.) Based on the horrible and unfair treatment Blacks and other minorities have endured in the United States, why do you think that Blacks and other minorities have NOT turned to actual violence? Do you think this was wise, or not? Why?

Most Blacks and minorities asked for equality, not a revenge nor any violence against public or the government policy. For decades, Blacks has endured horrible treatments such as slavery, famine, poverty, segregation, murders, institutional discriminations and racism, etc... racism in both personal and institutional. And I think an impact of Civil War Movements leaders like Rosa Parks and her shown of patience and strong will against the Whites and their segregation on the public bus seats, Martin Luther King jr and his official speech ("*I have a dream*") and his experience and education from peace leader named Ghandi, and the death of Emmet Till and her mother's decision to put up her son's death through open casket funeral service which exposed to public news. And to this modern day, Black Lives Matter movement supports more on the nonviolence. Back in the day, I think Blacks and minorities were prioritized on their family and their defense rather than on the public. And usually put their demands and messages through a mass peaceful movement against the institution. I think violence was never the answer to solve the issue and the movements understood the assignment. It wasn't right executing the exact same violation what the Whites did to them over decades but instead being very patient and gradually making the public on their side and appeal their messages. The exposure of violence to policemen, sheriffs, vigilante groups, and

Morgan,2004 The Voting Rights Act of 1965 which originally was intended to prohibit barriers to black registration and voting has been hailed as a triumph for civil rights and as a catalyst for the election of minorities to public office in both the Deep South and the urban North To advance its objective federal courts instructed many cities to change from at large to single member district electoral systems as a way to ensure that minorities had a reasonable chance to elect representatives of their choice In the first book to critique the implementation of this landmark legislation in a major American city Ruth Morgan examines its effect on local governance over forty years in Dallas and shows that it had unintended consequences for racial politics representation and public policy Breaking from studies that measure the success of the VRA in terms of increased minority representation Morgan assesses the consequences of the Act for Dallas city government and for the wider interests of minorities as well While endorsing the original intent of the VRA Morgan believes that this intent was subverted by subsequent amendments to the Act and by the courts attempts to advance the political standing of particular minority groups She argues that court imposed single member districts have created in Dallas a city council infected with parochialism and careerism a result of members no longer having to compromise to win citywide votes and have had an adverse impact on governmental effectiveness and voter turnout With corruption and cronyism now rampant voting rights legislation and litigation have ultimately failed to fulfill the hopes and aspirations of the unempowered and the district system has created an incentive for continued racial separation *Governance by Decree* offers a pointed assessment of the complexities and contradictions produced by the voting rights law while at the same time calling for the federal judiciary to exercise restraint in imposing its will when it lacks the capacity to make choices that are inherently political Morgan's powerfully argued case study should inspire much debate and inform forthcoming congressional deliberations over the renewal of the preclearance section of the VRA in 2007 Civil Rights Literature, Past & Present Christopher Allen Varlack,2017 American civil rights literature has largely been associated with speeches letters and non fiction works produced by African American activists of the 1950s and 60s such as Dr Martin Luther King Jr and Malcolm X This volume not only examines key works of the African American civil rights debate past and present it also explores issues of gender equality and sexual orientation integral to civil rights studies **Past Imperfect: Alternative Essays in American History: From Reconstruction to the present** Blanche Wiesen Cook,Ronald Radosh,1973 **The Human Tradition in the Civil Rights Movement** Susan M. Glisson,2006-09-11 The American civil rights movement represents one of the most

remarkable social revolutions in all of world history While no one would discount the significance of the leadership of Martin Luther King and others we should also recognize that the fight could not have been waged without the countless foot soldiers in the trenches As an important corrective to the traditional great man studies these essays emphasize the importance of grassroots actions and individual agency in the effort to bring about national civil renewal These biographies assert the importance of individuals on the local level working towards civil rights and the influence that this primarily African American movement had on others including La Raza the Native American Movement feminism and gay rights Through engaging biographies of such varied individuals as Abraham Galloway Ida B Wells James K Vardaman Jose Angel Gutierrez and Sylvia Rivera Glisson widens the scope of most Civil Rights studies beyond the 1954 1965 time frame to include its full history since the Civil War By widening the time frame studied these essays underscore the difficult often unrewarded and generational nature of social change
