**Understanding Walter Mosley** Jennifer Larson, 2016-10-31 A survey of an award winning author's extensive corpus written across a broad range of genres Walter Mosley is perhaps best known for his first published mystery *Devil in a Blue Dress* which became the basis for the 1995 movie of the same name featuring Denzel Washington Mosley has since written more than forty books across an impressive expanse of genres including but not limited to nonfiction science fiction drama and even young adult fiction garnering him many honors including an O Henry Award an Anisfield Wolf Book Award a Grammy Award a Pen Center Lifetime Achievement Award and two NAACP Image Awards for Outstanding Literary Work in Fiction In *Understanding Walter Mosley* Jennifer Larson considers Mosley's corpus as a whole to help readers more fully understand the evolution of his literary agenda All Mosley's texts feature his trademark accessibility as well as his penchant for creating narratives that both entertain and instruct Larson examines how Mosley's writing interrogates complicates and contextualizes recurring moral social and even personal questions She also considers the possible roots of Mosley's enduring popularity with a diverse group of readers Larson then traces key themes and claims throughout the Easy Rawlins series to show how Mosley's beloved hero offers unique perspectives on race class and masculinity in the mid to late twentieth century explores the ways in which Fearless Jones Mosley's second detective both builds on and diverges from his predecessor's character and looks at how the works featuring Leonid McGill Mosley's junior detective center on understanding the complex relationship between present day social dilemmas and the personal as well as the communal past Regarding Mosley's other genres Larson argues that the science fiction works together portray a future in which race class and gender are completely reimagined yet still subject to an oppressive power dynamic while his erotica asks readers to reconsider the dynamics of power and control but in a more

personal even intimate context Similarly in Mosley's nongenre fiction stories are revived through a reconnection with the past a reclaiming of cultural heritage and lineage and a rejection of classist visions of power Finally Mosley's nonfiction which persuades his audience to act through writing humanitarian efforts or social uprising offers a mix of lessons aimed at guiding readers through the same questions that inform his fiction writing

**Toward a Literary Ecology** Karen E. Waldron, Rob Friedman, 2013-07-29 Scholarship of literature and the environment demonstrates myriad understandings of nature and culture While some work in the field results in approaches that belong in the realm of cultural studies other scholars have expanded the boundaries of ecocriticism to connect the practice more explicitly to disciplines such as the biological sciences human geography or philosophy Even so the field of ecocriticism has yet to clearly articulate its interdisciplinary and transdisciplinary nature In *Toward a Literary Ecology: Places and Spaces in American Literature* editors Karen E. Waldron and Robert Friedman have assembled a collection of essays that study the interconnections between literature and the environment to theorize literary ecology The disciplinary perspectives in these essays allow readers to comprehend places and environments and to represent express or strive for that comprehension through literature Contributors to this volume explore the works of several authors including Gary Snyder, Karen Tei Yamashita, Rachel Carson, Terry Tempest Williams, Chip Ward, and Mary Oliver Other essays discuss such topics as urban fiction as a model of literary ecology, the geographies of belonging in the work of Native American poets, and the literary ecology of place in new nature writing Investigating texts for the complex interconnections they represent *Toward a Literary Ecology* suggests what such texts might teach us about the interconnections of our own world This volume also offers a means of analyzing representations of people in places within the realm of an historical, cultural, and geographically bounded yet diverse American literature Intended for students of literature and ecology, this collection will also appeal to scholars of geography, cultural studies, philosophy, biology, history, anthropology, and other related disciplines
