Finding Grace In The Concert Hall Community Meaning Among Springsteen Fans:

Finding Grace in the Concert Hall Linda K. Randall, 2010-10-21 Bruce Springsteen's music and performances have provided an emotional outlet for thousands of fans all over the world. Drawing from participant observation, the statements of Springsteen fans, and the life and music of Springsteen, Randall's ethnographic treatment documents the ways in which fans are inspired to create a global cultural community. This community functions as a social network offering emotional support, spirituality, and the motivation for doing good works. Randall discovers that the sensitivities and values Springsteen instills in his fans are as alive and valid as those experienced by adherents of widely recognized spiritual traditions. Her in-depth examination of the thoughts and actions of these fans reveals that embracing nontraditional spiritual values can engender multifaceted feelings including trust, hope, and respect for humankind. By acknowledging that a personal spiritual connection can develop outside a sectarian landscape, an appreciation of and tolerance for different belief systems can be cultivated and nourished.

Noticing God Richard Peace, 2012-04-13 Richard Peace unpacks what it means to make a conscious practice of noticing God in daily life. He explores the various ways people experience and recognize God's presence in mystical encounters, ordinary life, our hearts, through other people, through Scripture, nature, and the church. God is present in our world. You can encounter him. Here's how.

Contested Spaces, Common Ground, 2016-10-11 Spaces are produced and shaped by discourses and in turn produce and shape discourses themselves. Space is becoming a significant and complex concept for the encounter between people, cultures, religions, ideologies, politics, between histories and memories, the advantaged and the disadvantaged, the powerful and the weak. As a result, it provides a rich hermeneutical and methodological inventory for mapping interculturality and interreligiosity. This volume looks at space as a critical theory and epistemological tool within cultural studies that fosters the analysis of power structures and the deconstruction of representations of identities within our societies that are shaped by power.

The Tapestry of Culture Maxine Weisgrau, Abraham Rosman, Paula G. Rubel, 2023-07-10 When we think about society and culture, often we think of our own culture, the culture in which we were raised or currently live as the default. The eleventh edition of *The Tapestry of Culture* uses anthropological tools to translate the concepts, ideas, and behaviors of other cultures into language recognizable by today's students. The book's comparative approach balances the history of ethnography, fieldwork, and anthropology with today's globalized world, including the impact of climate change, social movements, social media, and technology, global health issues, and shifting political landscapes. New to the Eleventh Edition: New Chapter 12, Global Health and Wellness, examines the historical, political, and cultural issues that shape disease and health, including inequalities in access to physical and mental health services, the delivery of health care services, and health intervention strategies. New Chapter 11, Spaces and Places of Creative Expression, explores how social media and internet technologies play a major role in how contemporary audiences view and understand creativity, including music, dance, theater, film, painting, and other performance styles. Expanded

discussion of the cultural construction of gender and sexuality as well as LGBTQ issues in activism explores gender and sexuality through queer studies and in postcolonial settings Chapter 7 New discussion of critical race theory highlights its contributions to analyzing multiple forms of racism and discrimination while providing an exploration of the challenges of multiculturalism in contexts of nationality ethnicity and political representation Chapter 14 New discussions of environmental anthropology political ecology climate change inequality social movements globalization and transnationalism highlight these contemporary issues as subjects of anthropological inquiry Chapter 1

Musical Intimacy Zack Stiegler, Todd Campbell, 2023-08-10 Discourse on popular music frequently describes artists' recordings and performances as intimate Yet that discourse often stops short of elucidating how a mass-produced commodity such as popular music is able to elicit feelings of intimacy with and among its audience Through detailed analysis of popular music's composition performance production and promotion Musical Intimacy examines how intimacy is constructed and perceived in popular music via its affective and technological affordances From the recording studio to the concert stage from collective experience to individual listening and perception this book presents a working understanding of musical intimacy

The Tapestry of Culture Abraham Rosman, Paula G. Rubel, Maxine Weisgrau, 2017-01-12 The most exciting thing about anthropology is that it enables the student to become acquainted with people of different cultures The Tapestry of Culture provides the student with the basic concepts necessary to understand these different cultures while showing that cultural variations occur within certain limits Though the forces of globalization have caused cultures of the world around us to become increasingly similar the book shows that people nevertheless cling to ethnic identities and their cultural distinctiveness The tenth edition of this popular textbook incorporates new material throughout such as ethnographic examples in every chapter strengthened discussions of gender transnationalism and globalization and more To enhance the experience of both instructors and students the tenth edition is accompanied by a learning package that includes an instructor's manual with outlines key terms discussion questions lists of films and other resources and more a test bank and a companion website
