Firer Ruth And Sami Adwan The Israeli Palestinian Conflict:

The Politics of Education Reform in the Middle East Samira Alayan, Achim Rohde, Sarhan Dhouib, 2012 Education systems and textbooks in selected countries of the Middle East are increasingly the subject of debate This volume presents and analyzes the major trends as well as the scope and the limits of education reform initiatives undertaken in recent years In curricula and teaching materials representations of the Self and the Other offer insights into the contemporary dynamics of identity politics By building on a network of scholars working in various countries in the Middle East itself this book aims to contribute to the evolution of a field of comparative education studies in this region **Miseducation** A. J.

Angulo, 2016-04-01 A provocative collection that explores how intentional ignorance seeps into formal education Honorable Mention for the PROSE Education Theory Award of the Association of American Publishers Ignorance or the study of ignorance is having a moment Ignorance plays a powerful role in shaping public opinion channeling our politics and even directing scholarly research The first collection of essays to grapple with the historical interplay between education and ignorance Miseducation finds ignorance and its social production through na vet passivity and active agency at the center of many pivotal historical developments Ignorance allowed Americans to maintain the institution of slavery Nazis to promote ideas of race that fomented genocide in the 1930s and tobacco companies to downplay the dangers of cigarettes Today ignorance enables some to deny the fossil record and others to ignore climate science A J Angulo brings together seventeen experts from across the scholarly spectrum to explore how intentional ignorance seeps into formal education Each chapter identifies education as a critical site for advancing our still limited understanding of what exactly ignorance is where it comes from and how it is diffused maintained and regulated in society Miseducation also challenges the notion that schools are ideally unimpeachable sites of knowledge production access and equity By investigating how laws myths national aspirations and global relations have recast and at times distorted the key purposes of education this pathbreaking book sheds light on the role of ignorance in shaping ideas public opinion and policy The Israeli-Palestinian Conflict in History and Civics

Textbooks of Both Nations Ruth Firer, Sāmī 'Abd al-Razzāq 'Adwān, 2004 **The Search for Reconciliation** Yinan He, 2009-04-27 Focusing on two case studies from East Asia and Europe Yinan He argues that the key to interstate reconciliation is the harmonization of national memories *Israeli and Palestinian Narratives of Conflict* Robert I.

Rotberg, 2006 A candid look at the nature and origins of the bitter volatile Middle East conflict *Political Peoplehood* Rogers M. Smith, 2015-09-11 For more than three decades Rogers M Smith has been one of the leading scholars of the role of ideas in American politics policies and history Over time he has developed the concept of political peoples a category that is much broader and more fluid than legal citizenship enabling Smith to offer rich new analyses of political communities governing institutions public policies and moral debates This book gathers Smith s most important writings on peoplehood to build a coherent theoretical and historical account of what peoplehood has meant in American political life informed by

frequent comparisons to other political societies From the revolutionary era adoption of individual rights rhetoric to today's battles over the place of immigrants in a rapidly diversifying American society Smith shows how modern America's growing embrace of overlapping identities is in tension with the providentialism and exceptionalism that continue to make up so much of what many believe it means to be an American A major work that brings a lifetime of thought to bear on questions that are as urgent now as they have ever been Political Peoplehood will be essential reading for social scientists political philosophers policy analysts and historians alike

Textbooks and War Eugenia Roldán Vera, Eckhardt Fuchs, 2018-10-04 This volume reflects on the role played by textbooks in the complex relationship between war and education from a historical and multinational perspective asking how textbook content and production can play a part in these processes It has long been established that history textbooks play a key role in shaping the next generation's understanding of both past events and the concept of friend and foe Considering both current and historical textbooks often through a bi-national comparative approach the editors and contributors investigate various important aspects of the relationships between textbooks and war including the role wars play in the creation of national identities whether the country is on the winning or losing side the effacement of international wars to highlight a country's exceptionalism or the obscuring of intra-national conflict through the ways in which a civil war is portrayed This pioneering book will be of interest and value to students and scholars of textbooks educational media and the relationships between curricula and war

Islamophobia and Anti-Semitism Hillel Schenker, 2006 Islamophobia and anti-Semitism based on often interchangeable historic stereotypes fan the flames of fear and hatred against the other Thus Jews and Muslims serve as convenient scapegoats for many of society's ills and leaders misguided agendas In the post 9/11 world the Iraq War the breakdown of homogeneous societies in Europe the rise of fundamentalism and the lack of a resolution to the Israeli-Palestinian conflict have only served to exacerbate Islamophobia and anti-Semitism Anti-Semitism and Islamophobia are breeding hatred and creating more difficulties in the face of any serious effort to solve the Israeli-Palestinian conflict They are threatening to transform it from a political into a religious conflict and thereby cloud the judgment of anyone attempting to resolve it both in the region and in the broader international arena In this context a group of Israeli and Palestinian scholars and journalists joined together to start the Palestine-Israel Journal of Politics Economics and Culture Their goal is to clarify the positions of both sides and work toward a solution Islamophobia and Anti-Semitism furthers the debate on these topics in its full complexity marked at once by sharp differences and considerable common ground
