

Accidents can happen, anywhere, anytime. Knowing how to provide proper care can save a child's life. First aid can range from calling emergency medical personnel (911) to performing more advanced procedures such as administering CPR. Guidelines in this chart are specific to "non-health care professionals".

STEP 1: SURVEY THE SCENE

- If there is any kind of danger, call Emergency Medical Services (EMS) (911) first.
- Ensure the scene is safe for you and others.
- Look for things that may threaten your safety, such as fire, electrical wires, or dangerous fluids.
- If you feel your safety is threatened, stay back and allow professionals to handle any dangerous situations.

STEP 2: CHECK FOR RESPONSIVENESS

- Gently tap child and shout "Are you okay?"
- For infants, tap on their hands and feet and call their name.
- If the casualty responds, begin a Secondary Survey (see pg. 2).
- If the casualty is conscious (but appears to be choking), use "First Aid for Choking Child with Complete Airway Obstruction".
- If the casualty does not respond, send someone to call EMS (911).
- If you are alone and dealing with the child or infant, give care for 2 minutes first, then call EMS (911).
- Return and begin the Primary Survey (see below).

STEP 3: PRIMARY SURVEY

- The Primary Survey will help you to determine if any conditions threaten the casualty's life.
- Roll the casualty onto his or her back if they are not breathing or only gasping, or if the casualty's position keeps you from checking their breathing.
 - Kneel beside the casualty on the side they are not facing.
 - Roll the casualty toward you, "face up/down", as a single unit - do not twist.
 - Support back of the casualty's head and neck.
- Once you have determined that the casualty is not breathing or only gasping and have rolled them onto their back, proceed to step 3a.
- Remember **CAB**: circulation, airway, breathing.
- If the casualty is breathing normally, proceed to step 4a. Check for Control Severe Bleeding.

- If the child starts breathing or begins to vomit, place them into recovery position (see pg. 2).
- If the child is showing signs of an injury or illness, provide on-going casualty care until EMS (911) arrives.

STEP 3: PRIMARY SURVEY (CONT)

3a. CIRCULATION: Begin Compressions

CPR for Children (1-8 Years)

Find Hand Position (see Fig. 4b): Place the heel of your hand on the child's sternum, in the center (middle) between chest muscles (straight across from their armpits), then place the heel of the second hand on top of the first so that the hands are overlapping, interlocked and parallel. You may use one or two hands to do compressions.

Give 30 Compressions

 (see Fig. 4b)

- Position shoulders over hands.
- Compress sternum at least 2 inches (5 cm) down and up smoothly at a rate of at least 100 times per minute.
- Keep hands in contact with the chest at all times.
- Push hard, push fast. Allow for complete recoil of chest between compressions.
- If able to break, check hand position and keep going. do not stop.

CPR for Infants (Under 1 Year)

Find Correct Finger Position

 (see Fig. 4c): Place two fingers on breastbone (middle of chest) just below the infant's nipples.

Give 30 Compressions

- Compress sternum at least 1 1/2 inches (4 cm) down and up smoothly at a rate of at least 100 times per minute.
- Keep fingers in contact with the chest at all times.
- Push hard, push fast. Allow for complete recoil of chest between compressions.

3b. AIRWAY: Open the Airway

- Do "Head-tilt/chin-lift" (if neck injury is not suspected) (see Fig. 5).

If head/neck injury is suspected and the person is not breathing, "non-professional" rescuers are recommended to still open airway using the "Head-tilt/chin-lift". It is most important to get air into the person. Opening the airway using other methods is difficult to do and is therefore not recommended.

3c. BREATHING: Give 2 Full Breaths

- Pinch nostrils and give 2 breaths of air, each lasting 1 second (see Fig. 6).
- Watch to see that chest rises as breaths go in.

- If breath does not go in, adjust airway by tilting the head further back (reposition) and give another breath.

- For infants use a mouth-to-mouth-and-nose technique (see Fig. 7).
- To do this, use your mouth to make a seal over the infant's mouth and nose.
- If you have difficulty making an effective seal, try either mouth-to-mouth ventilation (pinch the nose closed) or mouth-to-nose ventilation (close the mouth).

BREATHS STILL DO NOT GO IN

- Do first aid for unconscious, choking child, or first aid for infant with complete airway obstruction.

BREATHS GO IN

- Deliver another 30 compressions, followed by 2 breaths. Continue cycle until:
 - The area becomes dangerous.
 - You are too physically exhausted to continue.
 - EMS (911) arrives.
- The person starts breathing or begins to vomit.
- Another trained rescuer takes over.
- Someone arrives with an AED (Automated External Defibrillator).

CASUALTY BEGINS BREATHING: Proceed to Step 4

First Aid For Children Quick Reference Guide Introduction

First Aid For Children Quick Reference Guide Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. First Aid For Children Quick Reference Guide Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. First Aid For Children Quick Reference Guide : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for First Aid For Children Quick Reference Guide : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks First Aid For Children Quick Reference Guide Offers a diverse range of free eBooks across various genres. First Aid For Children Quick Reference Guide Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. First Aid For Children Quick Reference Guide Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific First Aid For Children Quick Reference Guide, especially related to First Aid For Children Quick Reference Guide, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to First Aid For Children Quick Reference Guide, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some First Aid For Children Quick Reference Guide books or magazines might include. Look for these in online stores or libraries. Remember that while First Aid For Children Quick Reference Guide, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow First Aid For Children Quick Reference Guide eBooks for free, including popular titles. Online

Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the First Aid For Children Quick Reference Guide full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of First Aid For Children Quick Reference Guide eBooks, including some popular titles.

FAQs About First Aid For Children Quick Reference Guide Books

What is a First Aid For Children Quick Reference Guide PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a First Aid For Children Quick Reference Guide PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a First Aid For Children Quick Reference Guide PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a First Aid For Children Quick Reference Guide PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a First Aid For Children Quick Reference Guide PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection,

editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
