General Motors Michael W. R. Davis, 1999 The General Motors Corporation was established in 1908 by William C Durant who combined the Buick Oldsmobile and Oakland companies and later Cadillac to form GM From the 1920s onwards GM grew from a firm that accounted for about 10% of new car sales in the U S to become the largest producer of cars and trucks in the world The peak of the company s power and market dominance came in the 1960s which proved to be the decade of change for the U S auto industry With the introduction of federal safety regulations and control tailpipe emissions GM s position as the world's largest industrial corporation changed Its marketing strategy was undone by competitive challenges and the business was never to be the same again General Motors A Photographic History explores the growth of the company in a series of over 200 black and white images From the first assembly line to post Second World War recovery images from the world auto shows and the consequent re organization of GM take the reader on an intriguing visual tour of a tremendously important era in the industrialization of America Chevrolet Michael W. R. Davis, 2012 The Chevrolet car and truck business traces its roots back to Michigan's lumber industry in the middle of the 19th century Lumber mills gave way to carriage and wagon manufacturing and the claim before motorcars burst on the scene that Flint was the vehicle capital of the world This is the story of how those wagon makers guickly converted to producing automobiles overtaking automotive pioneer and archrival Ford in sales and building the Chevrolet brand into the global powerhouse entity it is today This volume traces the first half 1911 1960 of Chevrolet's 100 year history in photographic detail and provides an unparalleled spotter guide for long forgotten or never known Chevrolet cars and trucks Inside the Fisher Body Craftsman's Guild John L.
