## **Genesis Of The Cosmos The Ancient Science Of Continuous Creation:**

**Genesis of the Cosmos** Paul A. LaViolette,2004-04-15 Paul LaViolette reveals astonishing parallels between cutting edge scientific thought and early creation myths and how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from chaos Exposing the contradictions of the Big Bang theory LaViolette leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century

**The Sistine Chapel: a Study in Celestial Cartography** William John Meegan,2012-11-30 GODS MISSIVE TO THE SOUL THE SISTINE CHAPEL A Study in Celestial Cartography is a highly mystical and contemplative inquiry into The Mysteries and Esoteric Teachings of the Catholic Church The Catholic Churchs only onus in the world is to re articulate the sacred scriptures esoterically into as many artistic venues as possible Through a comprehensive comparative analysis of the symbolic and esoteric patterns codified to the Judeo Christian Scriptures the landscape of Jerusalem Chartres Cathedral stone and glass Dante Alighieris La Divina Commedia pen and ink the Sistine Chapel mosaics paint and wet plaster and Saint Peters Basilica marble the reader can determine for him or herself the efficacy of the esoteric science which hails from the dawn of the time space continuum as a direct missive from God The author discovered a relatively simple and yet extremely sophisticated mathematical and grammatical system of thought in ancient literature the integration of the Seven Liberal Arts Antiquity developed this esoteric science inherent in the soul psyche to codify the Word of God esoterically into the worlds sacred literature Each letter of the worlds sacred literature is symbolized and alphanumerically structured which makes the interpretation of each word far more important than the sum of its letters The Holy Writ i e the worlds religious literature is an encyclopedic library of knowledge relating wholly to the soul psyche There is no purpose for esotericisms existence other than for God to have a one on one relationship with the soul psyche Why is the soul psyche seemingly in the world How did the soul psyche come to its present state of existence What can the soul psyche do to extricate itself from its plight when the dynamic forces of the world become too oppressive for it to bear *Souls of Distortion Awakening* J. Wicherink,2006-02-17 This book reunites science and spirituality after her roads separated 300 years ago More and more scientists are discovering that both disciplines are only two sides of the same coin We are on the verge of a major paradigm change in science where the immaterial subjective world of the mind can no longer be separated from the objective material world This leap in human consciousness was already foreseen by the ancients and American indigenous people like the Maya Hopi and Aztecs who prophesized that this transformation of consciousness would take place in our time This book takes you on a journey from the ancient wisdom to the most modern scientific insights and demonstrates how both can be united **Science and the Akashic Field** Ervin Laszlo,2007-05-03 Presents the unifying world concept long sought by scientists mystics and sages an Integral Theory of Everything Explains how modern science has rediscovered the Akashic Field of perennial philosophy New edition updates ongoing scientific studies presents new research inspired by the first edition and includes new case studies

and a section on animal telepathy Mystics and sages have long maintained that there exists an interconnecting cosmic field at the roots of reality that conserves and conveys information a field known as the Akashic record Recent discoveries in vacuum physics show that this Akashic Field is real and has its equivalent in science s zero point field that underlies space itself This field consists of a subtle sea of fluctuating energies from which all things arise atoms and galaxies stars and planets living beings and even consciousness This zero point Akashic Field is the constant and enduring memory of the universe It holds the record of all that has happened on Earth and in the cosmos and relates it to all that is yet to happen In Science and the Akashic Field philosopher and scientist Ervin Laszlo conveys the essential element of this information field in language that is accessible and clear From the world of science he confirms our deepest intuitions of the oneness of creation in the Integral Theory of Everything We discover that as philosopher William James stated We are like islands in the sea separate on the surface but connected in the deep

[Decoding the Message of the Pulsars](#) Paul A. LaViolette,2006-04-21 A new interpretation of nearly 40 years of interstellar signals and the prophetic message they contain Contains extensive analysis of pulsar data revealing new ideas about the origins and functions of pulsars Provides proof of an extraterrestrial communication network Includes information about the formation of crop circles and force field beaming technology In 1967 astronomers began receiving and cataloging precisely timed radio pulses from extraterrestrial sources which they called pulsars These pulsars emit laserlike radio beams that penetrate through space much like searchlight beams Paul LaViolette who has been researching pulsars for over 25 years shows that while these pulsars have long been assumed to be spinning stars the true nature of these radio sources has been grossly misunderstood In Decoding the Message of the Pulsars LaViolette shows that pulsars are distributed in the sky in a nonrandom fashion often marking key galactic locations and that their signals are of intelligent origin Using extensive scientific data to corroborate his theory he presents evidence of unusual geometric alignments among pulsars and intriguing pulse period relationships Equally compelling is the message LaViolette contends is being sent by these extraterrestrial beacons a warning about a past galactic core explosion disaster that could recur in the near future

[PSIence](#) Marie Jones,2025-09-12 Are poltergeists energy fluctuations in the Zero Point Field Could even the simple experience of d j vu be explained by the quantum theory of parallel universes Do thoughts have the energy to manifest and move physical objects PSIence introduces readers to the latest discoveries in quantum physics and New Science that may explain the existence of paranormal phenomena UFOs ghosts poltergeists mysterious apparitions time anomalies the Bermuda Triangle energy vortices and psychic abilities such as ESP telekinesis remote viewing and recalling past lives You ll explore the cutting edge ideas that are fascinating both scientists and paranormal investigators including The latest theories of multiple universes and eleven dimensions The Zero Point Field is it the potential source of all creative energy The potential of every human being to experience the paranormal Many of the world s leading scientists researchers philosophers and spiritual leaders from noted physicists like Michio Kaku to the revered Dalai Lama are beginning to accept

the possibility of alternate realities and dimensions that warp time and space PSience takes the reader on a journey to where the normal and the paranormal intersect where the known and unknown converge where science greets the supernatural

**Earth Under Fire** Paul A. LaViolette,2005-10-25 In *Earth Under Fire* Paul LaViolette investigates the connection between ancient world catastrophe myths and modern scientific evidence of a galactic destruction cycle demonstrating how past civilizations accurately recorded the causes of these cataclysmic events knowledge of which may be crucial for the human race to survive the next catastrophic superwave cycle **The Golden Thread of Oneness** Jon Robertson,1997
