society connecting scholars through a network of publications and events This book traces the intellectual history of regional studies and regional science from the 1960s into the 2000s and the impact of the regional concept in public policy through the changing priorities of government in the UK and Europe By approaching the history through the Regional Studies Association it interrogates the role and function of the learned society model of organisation in contemporary academia and importance as a knowledge exchange vehicle for public policy influence *Geography, Its History and Concepts* Arild Holt-Jensen,1981 **American Book Publishing Record** ,2000 **National Union Catalog, 1982** ,1983 Subject Guide to Books in Print ,1971 **Resources in Education** ,1988 **National Union Catalog** ,1982 Includes entries for maps and atlases Subject Catalog. 1982 Library of Congress,1982 Current Geographical Publications University of Wisconsin--Milwaukee.
