**Normal Instructor and Teachers World**, 1923 Differentiation in Middle and High School Kristina J. Doubet, Jessica A. Hockett, 2015-07-14 In this one stop resource for middle and high school teachers Kristina J Doubet and Jessica A Hockett explore how to use differentiated instruction to help students be more successful learners regardless of background native language learning style motivation or school savvy They explain how to Create a healthy classroom community in which students unique qualities and needs are as important as the ones they have in common Translate curriculum into manageable and meaningful learning goals that are fit to be differentiated Use pre assessment and formative assessment to uncover students learning needs and tailor tasks accordingly Present students with avenues to take in process and produce knowledge that appeal to their varied interests and learning profiles Navigate roadblocks to implementing differentiation Each chapter provides a plethora of practical tools templates and strategies for a variety of subject areas developed by and for real teachers Whether you re new to differentiated instruction or looking to expand your repertoire of DI strategies Differentiation in Middle and High School will show you classroom tested ways to better engage students and help them succeed every day Education in a Digital World Neil Selwyn, 2012-08-21 Drawing on a wealth of theoretical and empirical work Education in a Digital World tackles a number of pressing questions such as how are global trends in educational technology refracted through national policies and processes How exactly are educational technologies linked to issues of global economics and the fortunes of national and international economies To what extent are digital technologies implicated

in the commercialisation marketization and commodification of education These questions and others are addressed throughout eight wide ranging chapters which consider topics such as the national policy strategies of countries across North and South America Europe and East Asia the educational technology portfolios of international organizations such as the United Nations and Microsoft as well as the role of education and technology in international development and the on going efforts to provide one laptop per child across low income regions and countries Through these examples Selwyn develops a detailed analysis of education technology and globalisation drawing together arguments and debates from various academic perspectives Written in a detailed but accessible manner this is an essential book for anyone wishing to gain a better understanding of the role of education and technology in contemporary globalised society

**The Rise and Fall of Civic Education** Michael Learn,2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies
