Another Now Yanis Varoufakis, 2021-09-14 What would a fair and equal society actually look like The world renowned economist and bestselling author Yanis Varoufakis presents his radical and subversive answer in a work of speculative fiction that recalls William Morris and William Gibson The year 2035 At a funeral for Iris a revolutionary leftist feminist Yango is approached by Costa Iris s closest comrade who urges him to carry out Iris s last wish plough into her secret diaries to tell their story But Costa insists leave out anything that might help Big Tech replicate my technologies That night Yango delves into Iris s diaries In them he discovers a chronicle of how Costa s revolutionary technologies had unveiled an actually existing fully democratized postcapitalist society Suddenly he understands Costa s obsession with the hackers trying to steal his secrets So begins Yanis Varoufakis s extraordinary novelistic thought experiment where the world famous economist offers an invigorating and deeply moving vision of an alternative reality *Another Now* tells the story of Costa a brilliant but deeply disillusioned computer engineer who creates a revolutionary technology that will allow the user a glimpse of a life beyond their dreams but will not enslave them But an accident during one of its trial runs unveils a cosmic wormhole where Costa meets his DNA double who is living in a 2025 very different than the one Costa is living in In this parallel 2025 a global hi tech uprising begun in the wake of the collapse of 2008 has birthed a post capitalist world in which work money land digital networks and politics have been truly democratized Banks have been eliminated as well as predatory data mining digital monopolies the gig economy is no more and the young are free to experiment with different careers and to study non lucrative topics from Sumerian pottery to astrophysics Intoxicated Costa travels to England to tell Iris his old comrade and her neighbor Eva a recovering banker turned neoliberal economics professor of the parallel universe he has discovered Costa eventually leads them back to his workshop in America where Iris and Eva meet their own doubles and confront hard truths about themselves and the daunting political challenge that the *Other Now* presents But as their obsession with the *Other Now* deepens time begins to run out as the wormhole begins to deteriorate and hackers begin to unleash new attacks on Costa s technology The trio have to make a choice which 2025 do they want to live in Varoufakis has been claiming for a while that we already live in postcapitalist times That since the 2008 crisis capitalism has been morphing into technofeudalism *Another Now* a riveting work of speculative fiction shows that there is a realistic democratic alternative to the technofeudalpostcapitalist dystopia taking shape all around us It also confronts us with the greatest question how far are we willing to go to bring it about
