B. Bobo,1982-01-01 Sleight of hand magic has consistently earned the respect of professional magicians If you are yet an amateur this easy to follow manual together with regular practice is the surest route to professional level competence All the test traditional methods of coin magic are here You can learn about palms holds flips switches change over cuffing sleeving and other techniques Herrmann's Wizard Manual Alexander Herrmann,2016-04-05 From the introductory FIRST WORDS ON MAGIC Magic naturally separates into two divisions One as performed by pure sleight of hand with ordinary objects and the other which depends upon apparatus or mechanical appliances and these are called respectively Drawing room and Grand or Stage Magic The former is made up of feats depending upon manual dexterity chemical combinations and arithmetical problems Grand magic likewise consists of manual manipulation and in addition mechanical appliances and optical illusions Cards of course play an important part in both branches We recommend the following rules to the student First Never tell your audience beforehand what you are going to do If you do so you at once give their vigilance the direction which it is most necessary to avoid and increase tenfold the chances of detection Second The same trick must not be performed twice during the same evening or before the same audience The reason for this is apparent from the first rule above There are generally two ways of bringing about the same or a similar result and in the event of your feeling constrained to respond to an encore you must perform it in a different manner Third Vary your tricks for this reason If you are continually doing those depending upon the dexterity of the fingers your audience will become accustomed to their movements therefore perform in succession tricks of sleight of hand tricks with apparatus and tricks in white magic so as to confuse the too inquisitive spectator and yet retain his attention Fourth Endeavor to divert the attention of the audience as much as possible from your movements and lead them to believe that you perform the trick by a different method to that actually employed Fifth Accustom yourself to use the eyes and the hands independently of each other remember that the audience are observing your actions and their attention is frequently taken from your hands with which you wish to make a certain manipulation to follow the directions of a glance thrown over your shoulder or elsewhere Sixth Never act the buffoon nor pass ungentlemanly personalities by such you only make yourself ridiculous and gain the ill will of some present It will frequently happen that a magician s audience will contain some clever busybody who knows how such and such a trick is done and informs his neighbors of the fact Should such a person come under your notice during an entertainment you can easily find an opportunity of bringing him to account
