The Methuen Drama Handbook of Women in Contemporary British Theatre Marissia Fragkou, Rebecca Benzie, 2025-02-06

This handbook provides a detailed exploration of the rich and diverse theatrical work produced by women in the first two decades of 21st century British theatre. The book explores key issues and methodologies relevant to women working in the UK's theatre industry including the legacies of feminism and its role in shaping contemporary work by women, the politics of visibility and inclusion in theatrical institutions and collaborative strategies in creating original work. It closely examines how women in contemporary British theatre tackle urgent social issues such as environmental risk, the representation of marginalized identities and mental and physical wellbeing. Chapters by both established and early career scholars from a variety of international contexts present new perspectives on significant questions and issues underpinning women's work in 21st century British theatre by engaging with contemporary debates from theatre and performance studies and cultural theory. A concluding roundtable with women theatre practitioners addresses key questions pertaining to their work including working conditions, the politics of funding and of ageing, disability and care. With a foreword by the Guardian's chief theatre critic Arifa Akbar and featuring research tools such as introductions to sections, a detailed list of sources and an annotated bibliography, this is an authoritative study for anyone with a keen research interest in the distinct contribution of women to contemporary British theatre and performance.

Memos from a Theatre Lab: Spaces, Relationships, and Immersive Theatre Nandita Dinesh, 2018-01-15. Drawing from Dinesh's findings in *Memos from a Theatre Lab: Exploring What Immersive Theatre Does*, this practice-based research project, second in an envisioned series of Immersive Theatre experiments in Dinesh's theatre laboratory, considers the potential impact of pre-existing relationships between actors, spectators and performance spaces when using immersive theatrical aesthetics toward educational and/or socio-political objectives. *Memos from a Theatre Lab: Spaces, Relationships, and Immersive Theatre* explores the following questions: When audience members do not know the actors outside the milieu of a theatrical performance, does an immersive form hold different implications than if performers and spectators know each other in real life? When actors and spectators are strangers to each other, are performers more or less likely to judge the responses that are given to them within an immersive scenario? What kinds of immersive situations, especially in Applied Theatre interventions, might benefit from the presence or absence of a pre-existing relationship between performers, audience members and the spaces in which these experiences occur? In describing the processes involved in designing such an experiment, crafting the relevant immersive performances and gathering/analysing data from actors and spectators, this book puts forward strategies for students, researchers and practitioners who seek to better understand the form of Immersive Theatre.

Worthen,2014-06-26 Taking a performance studies perspective on Shakespearean theatre W B Worthen argues that the theatrical event represents less an inquiry into the presumed meanings of the text than an effort to frame performance as a vehicle of cultural critique Using contemporary performances as test cases Worthen explores the interfaces between the origins of Shakespeare s writing as literature and as theatre the modes of engagement with Shakespeare s plays for readers and spectators and the function of changing performance technologies on our knowledge of Shakespeare This book not only provides the material for performance analysis but places important contemporary Shakespeare productions in dialogue with three influential areas of critical discourse texts and authorship the function of character in cognitive theatre studies and the representation of theatre and performing in the digital humanities This book will be vital reading for scholars and advanced students of Shakespeare and of performance studies

Actors and the Art of Performance Susanne Granzer, 2016-03-09 Actors and the Art of Performance Under Exposure combines the author's two main biographical paths her professional commitment to the fields of both theatre and philosophy The art of acting on stage is analysed here not only from the theoretical perspective of a spectator but also from the perspective of the actor The author draws on her experience as both a theatre actor and a university professor whose teachings in the art of acting rely heavily on her own experience and also on her philosophical knowledge The book is unique not only in terms of its content but also in terms of its style Written in a multiplicity of voices the text oscillates between philosophical reasoning and narrative forms of writing including micro narratives fables parables and inter alia by Carroll Hoffmann and Kleist Hence the book claims that a trans disciplinary dialogue between the art of acting and the art of philosophical thinking calls for an aesthetical research that questions and begins to seek alternatives to traditionally established and ingrained formats of philosophy
