## The Ban on Smoking in Public Places

Smoking ban in public places has been a hot issue these last months not only in Malta but also in various countries who are discussing the effects a ban would have. There have been several debates on smoking ban. Even though the harmful effects of smoking, both active and passive, are well known and undeniable smoking is far from being in decline; it is spreading among young people in particular quickly.

Issue

Most controversial debate is going on public smoking ban. The reason is simple, smoking ban affects directly all people rapidly and we can see its effects in a short-term period. There have been a lot of arguments brought up both in favour and against a public smoking ban. Some of the arguments in favour are the following. Smoking ban is one of the controversial ways for reducing smoking and recognizing non-smokers' right to health protection. The health risks of smoking are clear. Passive smoking does carry risks. Many leading medical and scientific organizations recognize second hand smoke as a cause of a range of life-threatening conditions.
