**Disseminating Darwinism** Ronald L. Numbers, John Stenhouse, 1999-12-28 This innovative collection of original essays focuses on the ways in which geography gender race and religion influenced the reception of Darwinism in the English speaking world of the late nineteenth and early twentieth centuries The contributions to this volume collectively illustrate the importance of local social physical and religious arrangements while revealing that neither distance from Darwin's home at Down nor size of community greatly influenced how various regions responded to Darwinism Essays spanning the world from Great Britain and North America to Australia and New Zealand explore the various meanings for Darwinism in these widely separated locales while other chapters focus on the difference it made in the debates over evolution      **Evolution Vs.**

**Creationism** Eugenie C. Scott, 2009-08-03 Presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy      **A**

**Companion to Cultural Geography** James Duncan, Nuala C. Johnson, Richard H. Schein, 2008-04-15 A Companion to Cultural Geography brings together original contributions from 35 distinguished international scholars to provide a critical overview of this dynamic and influential field of study Provides accessible overviews of key themes debates and controversies from a variety of historical and theoretical vantage points Charts significant changes in cultural geography in the twentieth century as well as the principal approaches that currently animate work in the field A valuable resource not just for geographers but also those working in allied fields who wish to get a clear understanding of the contribution geography is making to cross disciplinary debates      **Nature and Scripture in the Abrahamic Religions: God, Scripture and the**

**rise of modern science (1200-1700)** Jitse M. van der Meer, Scott Mandelbrote, 2008 These volumes describe how the development of the different styles of interpretation found in reading scripture and nature have transformed ideas of both the written word and the created world      **Nature and Scripture in the Abrahamic Religions: 1700-Present** Scott

Mandelbrote, Jitse van der Meer, 2009-01-31 The four companion volumes of Nature and Scripture in the Abrahamic Religions contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation Furthermore questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences Contributors are J Matthew Ashley Robert E Brown Elizabeth Chmielewski Edward B Davis Henri Wijnandus de Knijff Marwa Elshakry Richard England Menachem Fisch George Harinck Bernhard Kleeberg Scott Mandelbrote G Blair Nelson Alexei V Nesteruk Jitse M van der Meer Rob P W Visser and William Yarchin      *Global Spencerism* , 2015-10-27 Today the name most closely associated with evolutionary

theory is Charles Darwin Given Darwin s immense reputation it is easy to forget that Herbert Spencer in his time was just as famous as Darwin It turns out that Spencer s evolutionary thought was not what necessarily appealed to many of his readers since they had their own sense of his identity and importance By focusing on Spencer the evolutionist scholars have tended to concentrate their attention on a rather narrow view of him that has come out of Anglo American appropriations of his thought Spencer was one of the first international public intellectuals whose views on psychology religion sociology ethics education and biology captured the imagination of readers all over the world The chapters will cover the communication and appropriation of Spencer s ideas in Russia the Middle East China Japan Mexico Argentina Brazil the United States Italy Scandinavia and France Contributors are Li Bin Juan Manuel Rodriguez Caso Gowan Dawson Heloisa Maria Bertol Domingues Marwa Elshakry Mark Francis G Clinton Godart Michael Gordon Paola Govoni Rosaura Ruiz Guti rrez Hans Henrik Hjerimitslev Ricardo Noguera Solano Adriana Novoa Greg Radick Nathalie Richard Ke Zunke EVOLUTION Michael Ruse, Joseph Travis, 2009-01-01 Spanning evolutionary science from its inception to its latest findings from discoveries and data to philosophy and history this book is the most complete authoritative and inviting one volume introduction to evolutionary biology available Clear informative and comprehensive in scope Evolution opens with a series of major essays dealing with the history and philosophy of evolutionary biology with major empirical and theoretical questions in the science from speciation to adaptation from paleontology to evolutionary development evo devo and concluding with essays on the social and political significance of evolutionary biology today A second encyclopedic section travels the spectrum of topics in evolution with concise informative and accessible entries on individuals from Aristotle and Linneaus to Louis Leakey and Jean Lamarck from T H Huxley and E O Wilson to Joseph Felsenstein and Motoo Kimura and on subjects from altruism and amphibians to evolutionary psychology and Piltdown Man to the Scopes trial and social Darwinism Readers will find the latest word on the history and philosophy of evolution the nuances of the science itself and the intricate interplay among evolutionary study religion philosophy and society Appearing at the beginning of the Darwin Year of 2009 the 200th anniversary of the birth of Charles Darwin and the 150th anniversary of the publication of the Origin of Species this volume is a fitting tribute to the science Darwin set in motion **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been

affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

**Evolution Vs. Creationism** Eugenie Carol Scott,2005 Almost eighty years after the Scopes trial the debate over the teaching of evolution continues to rage There is no easy resolution it is a complex topic with profound scientific religious educational and legal implications How can a student or parent understand this issue which is such a vital part of education Evolution vs Creationism provides a badly needed comprehensive and balanced survey Written by one of the leading advocates for the teaching of evolution in the United states this accessible resource provides an introduction to the many facets of the current debate the scientific evidence for evolution the legal and educational basis for its teaching and the various religious points of view as well as a concise history of the evolution creationism controversy Each of the four sections of Evolution vs Creationism provides a resource that will assist the reader in better understanding these issues The first section addresses the nature of how evolution works as part of the scientific enterprise as well as a summary of the relationship between religious beliefs and science A section on the history of the controversy provides a handy synopsis of the lengthy struggles from before Darwin to the present day between advocates of creationism and the proponents of evolution A collection of primary source documents addressing cosmology law education and religious issues from all sides of the debate constitute the third section The book concludes with a selection of resources for further information for those who wish to study the topic in more depth

**Darwinism and the Divine in America** Jon H. Roberts,2001 This title provides a comprehensive analytical overview of public dialogue among 19th century American Protestant intellectuals who struggled with the theory of organic evolution Arguments over the scientific merits of Darwin s theory gave way to discussions of its theological implications

**Charles Darwin: The Power of Place** E. Janet Browne,1995

**Occasional Papers of the California Academy of Sciences** California Academy of Sciences,2009

**Encyclopedia of American Cultural & Intellectual History** Mary Kupiec Cayton,Peter W. Williams,2001 A study of American thought and culture throughout history examines the individuals and documents that revealed significant ideas issues and movements

**Science, Religion, and the Human Experience** James D. Proctor,2005-04-21 This collection of essays looks at the relationship between science and religion The book begins from the premise that both science and religion operate in yet seek to reach beyond specific historical political ideological and psychological contexts

**The Invention of Altruism** Thomas

Dixon,2008-05-08 This volume explores how Victorian philosophers scientists clergymen and novelists debated the meaning of the new term altruism Including a reappraisal of Charles Darwin s ideas and insights into the rise of popular socialism this study is highly relevant to contemporary debates about altruism evolution religion and ethics     **Biology and Ideology from Descartes to Dawkins** Denis R. Alexander,Ronald L. Numbers,2010-05-15 Over the course of human history the sciences and biology in particular have often been manipulated to cause immense human suffering By investigating the past this book features contributors who hope to better prepare us to discern ideological abuse of science when it occurs in the future     **The Journal of Philosophy** ,2002     *History and Philosophy of the Life Sciences* ,2002     **Proceedings of the ...
