Disease Concept Of Alcoholism:

The Disease Concept of Alcoholism Elvin Morton Jellinek, 1960 *The Disease Concept of Alcoholism* E. M. Jellinek, 2020-04-23 Jellinek's famous book defining the concept of alcoholism as a medical disease facilitated moving alcoholism into a different light Jellinek is often called the father of the disease theory or model of alcoholism His theory listed alcoholism as having stages that drinkers progressively passed through *The Disease Concept of Alcoholism* Elvin Morton Jellinek, 1960 **Introduction to Alcoholism Counseling** Jerome David Levin, 1995 Beginning with the chemical and pharmacological aspects of alcoholism this book goes on to examine the medical social anthropological and psychological foundations of the problem This second edition features discussion on new treatment *The Disease Concept of Alcoholism* David Ohlms, 1983 *The disease concept of alcoholism* Elvin M. Jellinek, 1968 **Drugs, Alcohol, and Social Problems** James D. Orcutt, David R. Rudy, 2003 *Drugs Alcohol and Social Problems* a collection edited James D Orcutt and David R Rudy includes 14 clearly written articles that exemplify the best of sociological scholarship on drug and alcohol problems The readings strike a balance between constructionist epidemiological and ethnographic approaches to the study of drinking drug use and related problems such as domestic violence crime and the spread of HIV AIDS A general introduction and five section introductions written especially for this volume highlight basic theoretical questions and analytical themes that run through the articles In contrast to many books on problems of substance use *Drugs Alcohol and Social Problems* devotes equal attention to drug and alcohol related issues The volume is organized around important theoretical and research approaches to the sociology of social problems making it suitable for adoption as a supplement in undergraduate courses on social problems as well as for more specialized undergraduate and graduate courses in the area of drug and alcohol studies

THE DISEASE CONCEPT OF ALCOHOLISM : BY E. M. JELLINEK. PUBL. ON BEHALF OF THE CHRISTOPHER D. SMITHERS FOUNDATION. Elvin M. Jellinek, 1968 *The Disease Concept* Norman S. Miller, 1990 *The Disease Concept*

Research Advances in Alcohol and Drug Problems Reginald Smart, 2013-11-22 This book continues the series of reviews of research advances first published in 1974 The editors aim here is to present critical and integrative reviews by internationally recognized scholars of areas in which there has been much recent research In this task we have been greatly helped by the staff of Plenum Press and the Advisory Panel listed at the front of this volume Several members of the Panel have retired Dr W M D Paton Dr K Bruun Dr K F Killam and Dr J R Seeley Dr Klaus Makela has accepted our invitation to join the Panel Unfortunately one member of the Panel Professor William McGlothlin died as a result of a tragic accident He was a gifted and sensitive researcher His work over many years was well known to those studying alcohol and drug problems We want to acknowledge his contributions to the Research Advances Series and to the field in general The editors wish to acknowledge the help of Julliana Newell Ayoub in preparation of this volume This volume contains three papers by H Fingarette R Room and B Kissin on *The Disease Concept* They were originally prepared for an earlier volume but could not be

included because of scheduling problems The editors and not the authors are responsible for this delay Because they are primarily philosophical and theoretical in nature they are not diminished in value by the lesser number of references to recent research

The Disease Concept of Alcoholism David Biles,1978 Paper presented to the 1978 Autumn School of Studies on Alcohol and Drugs May 10 12

The Disease Concept of Alcoholism and Drug Addiction ,1991 *The Disease Concept of Alcoholism and Drug Addiction* Norman S. Miller,1991 *The Disease Concept of Alcoholism* Robert William Harrington,1982 *The Disease Concept of Alcoholism* Stephen T. White,1991

The Disease Concept of Alcoholism Revisited Mark Keller,1976 *Alcoholism Etiology and Treatment* Bernard Segal,2022-05-29 First published in 1988 Alcoholism Etiology and Treatment provides a stimulating discussion concerning an understanding of the etiology and treatment of alcoholism Divided into five chapters it brings themes like the disease concept of alcoholism interdisciplinary biobehavioral research on alcohol problems sociocultural and organizational bases of support for alcohol treatment genetic predisposition to alcoholism and anthropological perspectives on prevention and intervention to provide a forum for discussion of some of the issues that prevail in the field of alcoholism This book is an essential read for students and scholars of addiction studies psychology sociology and behavioural studies

The Biology of Alcoholism Benjamin Kissin,2012-12-06 Pathogenesis is defined in Blakiston s Medical Dictional as the course of development of disease including the sequence of processes or events from inception to the characteristic lesion or disease The central position of the word pathogenesis in the titles of Volumes 6 and 7 in itself connotes a bias on the part of the editors in favor of the disease concept of alcoholism inasmuch as the end product of the pathogenetic process is presumed to be a disease But the disease model as here conceptualized is vastly different from that of Jellinek or of Alcoholics Anonymous or of psychoanalysis In those theories alcoholism is seen as the inevitable consequence of some specific flaw in the heredity or the experience of the afflicted individual that inexorably leads to alcoholism In these present volumes the alcoholic syndrome is viewed rather as the outgrowth of the interaction of a variety of biological psychological and social influences which depending on the predominance of one or another may lead to different types of alcoholism This view which has been labeled the bio psycho social perspective encompasses a larger view of the dynamics of the development of alcoholism incorporating data from each of the phenomenologic levels involved An additional complication arises from the fact that the physiological and psychosocial stigmata of alcoholics which are probably most often the result of prolonged drinking frequently have come to be considered as causes of the disease

Understanding and Treating Alcoholism Jill Littrell,2014-01-02 There seems to be an abundance of factual information regarding alcoholism what causes it who is most susceptible how it affects its victims and how it should be treated However a definitive source of data supporting or refuting the numerous and diverse positions was never available Thus the goal of the author is to provide professionals with a solid understanding as to which factual statements about alcoholism are actually supported with evidence and some of the empirically validated ways to proceed

with treatment Major methods of treatment are reviewed and empirically based approaches are compared and contrasted with one another Different and sometimes new focal points are explored such as the disease concept of alcoholism family members of alcoholics personality characteristics and effects of alcoholism exclusive to women Also notable is the nearly unprecedented look into the impact of alcohol on all types of mood and behavior rather than just on aggression a topic long since exhausted A comprehensive review of literature complemented with critiques of research this two volume set is a thorough informative source of reference for anyone who seeks to further their knowledge of this often misunderstood yet unfortunately all too common phenomenon *Alcoholism, Introduction to Theory and Treatment* David Andrew Ward, 1986-02
