Dobson, 2010-04-01 Animation was once a relatively simple matter using fairly primitive means to produce rather short films of subjects that were generally comedic and often quite childish However things have changed and they continue changing at a maddening pace One new technique after another has made it easier faster and above all cheaper to produce the material which has taken on an increasing variety of forms The A to Z of Animation and Cartoons is an introduction to all aspects of animation history and its development as a technology and industry beyond the familiar cartoons from the Disney and Warner Bros Studios This is done through a chronology an introductory essay photos a bibliography and over 200 cross referenced dictionary entries on animators directors studios techniques films and some of the best known characters

**Star Wars Meets the Eras of Feminism** Valerie Estelle Frankel, 2020-07-07 Star Wars defined popular big screen science fiction Still what many viewers best recall is assertive hilarious Leia the diminutive princess with a giant blaster who had to save them all As the 1977 film arrived women were marching for equality and demanding equal pay with few onscreen role models Leia echoed their struggle and showed them what they could be Two more films joined in though by the early eighties post feminism was pushing back and shoving the tough heroine into her pornographic gold bikini After a sixteen year gap the prequels catered to a far different audience Queen Amidala's decoy power originates in how dominated she is by her massive royal gowns This obsession with fashion but also costuming as a girly superpower fits well with the heroines of the time The third wavers filled the screens with glamorous mighty girls strong but not too strong like the idealistic teen Ahsoka of Clone Wars However space colonialism abusive romance and sacrifice left these characters a work in progress Finally the

sequel era has introduced many more women to fill the galaxy Rey Jyn Rose Maz Qi ra Val L3 37 Captain Phasma Admiral Holdo and of course General Leia Making women the central warriors and leaders while keeping them powerful and nonsexualized emphasizes that they can share in the franchise instead of supporting male Jedi There s also more diversity though it s still imperfect Hera and Sabine on the spinoff cartoon Rebels and the many girls in the new franchise Forces of Destiny round out the era along with toys picture books and other hallmarks of a new more feminist fourth wave for the franchise

Star Wars and the Hero's Journey Valerie Estelle Frankel,2021-03-29 The original Star Wars trilogy famously follows Joseph Campbell s model for the hero s journey making Luke Skywalker s story the new hero quest for a modern age With the nine plus film saga complete however new story patterns have emerged as the hero s journey is imagined over and over for characters of different ages genders and backgrounds The prequels offer the plot arc of the villain s journey through Anakin Leia and Padme while damsels in the men s story break out to undergo their own ordeals The heroine s journey is exemplified by Rey and Jyn Obi Wan Yoda and Vader must accept the loss of power and fade into spirit guardians perpetuating the lifecycle By the sequel era the original trio become mentors to the younger generation and finally must do the same Meanwhile the Mandalorian explores a different form of the quest as he transforms from immature warrior to patriarch This book tracks the journeys of over 20 characters throughout the franchise

**Historical Dictionary of Animation and Cartoons** Nichola Dobson,2020-06-15 Historical Dictionary of Animation and Cartoons is intended to provide an overview of the animation industry and its historical development The animation industry has been in existence as long some would argue longer than cinema yet it has had less exposure in terms of the discourse of moving image history This book introduces animation by considering the various definitions that have been used to describe it over the years A different perception of animation by producers and consumers has affected how the industry developed and changed over the past hundred years This second edition of Historical Dictionary of Animation and Cartoons contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on animators directors studios techniques films and some of the best known characters This book is an excellent resource for students researchers and anyone wanting to know more about animation and cartoons
