**Dispute Settlement Reports 2016: Volume 4, Pages 1545 to 2272** World Trade Organization, 2017-12-28 The Dispute Settlement Reports are the WTO authorized and paginated reports in English An essential addition to the library of all practicing and academic trade lawyers and needed by students worldwide taking courses in international economic or trade law DSR 2016 Volume 4 reports on Russia Tariff Treatment of Certain Agricultural and Manufacturing Products WT DS485 and India Certain Measures Relating to Solar Cells and Solar Modules WT DS456 **Theories and Practices of Compliance with WTO Law** Yen Kong Ngangjoh Hodu, 2012-08-01 Compliance with international institutional norms is often conceived as a yardstick with which to test the effectiveness of international law However the ongoing failure of the WTO regime to elicit compliance with its agreements has led many legal theorists to reject this view in favour of a realism that describes an international system void of any authority to enforce rules in which egoistic states calculate their own interests in light of the existing distribution of power An institutionalist riposte which insists on the capability of states to come together nonetheless to make binding rules that will determine their behaviour vis vis each other of necessity focuses on developing enforceable remedies when rules are not complied with Confronting this stark and apparently intractable situation this book applies social science theories to the question as to why nation states comply or do not comply with international trade law obligations The author examines various theories of compliance in the context of world trade law and discusses ways in which a much more robust compliance with global trade rules may be ensured In the course of the analysis numerous germane issues arise including the following the stalemate in the WTO judicial and political process third party rights and WTO Law compliance the role of arbitrators in determining reasonable period of time contract theory reputation costs good faith obligations required by pacta sunt servanda imposing remedies collectively multilateral enforcement of DSB findings and early determination of injuries once nullification and impairment have been established The author's approach leads not only to a new understanding of the function of the WTO as a legal system but also to well grounded recommendations concerning remedies that address the issue of continuous breach of legal duties in the WTO This is a timely and accessible analysis of an increasingly important aspect of the interface of international trade law and economics It will undoubtedly lead to a deeper debate and accelerate the inevitability of effective practical action Policymakers practitioners and academics in different fields of social sciences will appreciate its forward looking perspective in identifying the issues that are now assuming centre stage in international economic law Dispute Resolution Journal, 2004 **The Political Economy of WTO Implementation and China's Approach to Litigation in the WTO** Yen Kong Ngangjoh-Hodu, Zhang Qi, 2016-01-29 Why and how do states obey international law This engaging book tackles this very question head on via its examination of the conflicting and conciliating processes of the Chinese approach to litigation and the Western approach to legal orientation in the field of the WTO dispute settlement mechanism The authors examine the normative framework of

WTO rule implementation in a globalised international economic order They further explore the notion of the rule of law in China's Confucian system and how it interacts with a rule based world trading system Topics discussed include theorising the WTO implementation regime the Chinese approach to law China and the WTO dispute settlement system and Chinese Confucianism and compliance With its focus on international economic law and political science this book will be accessible to students policy makers practitioners and academics looking to understand China and the rule of law in a global context
