Nicole Alexander,2023-03-23 Paradise is found in a vivid colorful world under clear blue tropical waves as sea turtles and
bright fish become her dive buddies She finds serenity in the serenade of a hot young musician His beautiful soul carries her
to the outermost galaxies but is this love or just her imagination Love is delayed and faith is tested when a second musician
enters the picture She is caught between self interest and national security a decoy that makes Big Brother s ever watchful
eyes cross Solace is found beneath the placid Pacific until climate change brings winter waves currents and surf so strong
that there may be no returning from the sea How does one distinguish between coincidence and the intricate connection of
life s unseen undercurrents Time moves on Peace found beneath the ocean is not found on dry land as health concerns and

around the sea She is caught in a tsunami wave after wave after wave with no way back to shore or is there **Divemaster**
