Diversity And Globalization 5th Edition:

Globalisation, Cultural Diversity and Schooling Joseph Zajda, Suzanne Majhanovich, 2024-05-22 This book analyses dominant discourses of globalisation cultural diversity and schooling The collection in this volume advance further the discussions on the phenomenon of globalisation and its far reaching effects on our world and consider cultural diversity in its broadest sense as it manifests itself in a globalised world Zajda has argued that globalisation represents a synthesis of technology ideology and organisation specifically related to border crossings of people global finance and trade IT convergence as well as cross cultural communication The reality of cultural diversity has been brought into stronger focus because of globalisation Cultural diversity always present in society is more evident today because of globalisation The ways society copes with cultural diversity have changed such that the embrace of cultural diversity as part of identity is encouraged in liberal democracies Cultural diversity as presented in this volume is seen in a broad context and includes factors such as race ethnicity gender sexual orientations socio economic status culture age and physical ability as well as a variety of beliefs and values The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation cultural diversity democracy and equality for all *Investing in Cultural Diversity and Intercultural Dialogue* Unesco, 2009-01-01 This report analyses all aspects of cultural diversity which has emerged as a key concern of the international community in recent decades and maps out new approaches to monitoring and shaping the changes that are taking place It highlights in particular the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends The report proposes a series of ten policy oriented recommendations to the attention of States intergovernmental and non governmental organizations international and regional bodies national institutions and the private sector on how to invest in cultural diversity Emphasizing the importance of cultural diversity in different areas languages education communication and new media development and creativity and the marketplace based on data and examples collected from around the world the report is also intended for the general public It proposes a coherent vision of cultural diversity and clarifies how far from being a threat it can become beneficial to the action of the international community *Handbook of Research in Social Studies Education* Linda S. Levstik, Cynthia A. Tyson, 2010-04-15 This Handbook outlines the current state of research in social studies education a complex dynamic challenging field with competing perspectives about appropriate goals and on going conflict over the content of the curriculum Equally important it encourages new research in order to advance the field and foster civic competence long maintained by advocates for the social studies as a fundamental goal In considering how to organize the Handbook the editors searched out definitions of social studies statements of purpose and themes that linked or divided theory research and practices and established criteria for topics to include Each chapter meets one or more of these criteria research activity since the last Handbook that warrants a new analysis topics representing a major emphasis in the NCSS

standards and topics reflecting an emerging or reemerging field within the social studies The volume is organized around seven themes Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must have resource for all beginning and experienced researchers in the field Diversity Management: Dennis Arekpita Ogirri Ph.D. MURP,2019-08-19 In this book this author utilizes various concepts theories analytical methods techniques and practical knowledge and expertise propounded or espoused by scholars and experts with differing worldviews that tend to facilitate the understanding of diversity and diversity management in the global village Some of the perspectives are based on philosophical ideological and cultural orientations of scholars statesmen and experts from the various geopolitical regions of the world Some of the discussion may evoke some controversial thought processes that are considered necessary for healthy debate on the issues of diversity and diversity management from interdisciplinary multidisciplinary and trans disciplinary perspectives However there is more emphasis on global and interdisciplinary perspectives in the discussion of diversity and diversity management in this book The purpose of this book is to refocus attention on the issues of diversity and diversity management but from global and interdisciplinary perspectives The book contributes to the continuing discourse on diversity and diversity management by presenting some conventional and less controversial theories and models as well as some traditionally controversial ones for managing diversity in the workplace in particular and in society in general Whereas much has been written in the past about the debate over which strategies are best for managing diversity new study dimensions in the era of globalization of business economic political and socio cultural relations now require the revisiting of the issues of diversity and diversity management from global and interdisciplinary perspectives Existing published research on diversity management does not focus on both the global and interdisciplinary perspectives *International Perspectives on Teaching Rival Histories* Henrik Åström Elmersjö,Anna Clark,Monika Vinterek,2017-04-04 This book presents a survey of approaches to dealing with rival histories in the classroom arguing that approaching this problem requires great sensitivity to differing national educational and narrative contexts Contested narratives and disputed histories have long been an important issue in history teaching all over the world and have even been described as the history or culture wars In this book authors from across the globe ponder the question what can teachers do and what are they doing to address conflicting narratives of the same past and puts an epistemological issue at the heart of the discussion what does it mean for the epistemology of history if it is possible to teach more than one narrative Divided into three sections that deal with historical cultures multicultural societies and multiperspectivity the chapters of the book showcase that dealing with rival histories is very much dependent on context and that diverse teaching traditions and societal debates mean that teachers abilities in engaging with the teaching of rival narratives are very different The volume will be compelling reading for students and researchers in the

fields of education history sociology and philosophy as well as practising teachers

The Politics of Social Cohesion Nils Holtug, 2021-12-16 Immigration is a divisive policy issue in modern liberal democracies A common worry is that immigration poses a threat to social cohesion and so to the social unity that underpins cooperation stable democratic institutions and a robust welfare state At the heart of this worry is the suggestion that social cohesion requires a shared identity at the societal level In *The Politics of Social Cohesion* Nils Holtug gives a careful assessment of the impact of immigration on social cohesion and egalitarian redistribution First he critically scrutinizes an influential argument according to which immigration leads to ethnic diversity which again tends to undermine trust and solidarity and so the social basis for redistribution According to this argument immigration should be severely restricted And second he considers the suggestion that in response to worries about immigration states should promote a shared identity to foster social cohesion in the citizenry Holtug argues that the effects of immigration on social cohesion do not need to compromise social justice and that core principles of liberty and equality not only form the normative basis for just policies of immigration and integration but as a matter of empirical fact are also the values that if shared are most likely to produce the social cohesion among community members that provides the social basis for implementing justice
