What Reviewers Are Saying: The authors' thorough coverage of this material in an organized format is exactly why I chose this text over others. Janice G. Wells, Ph.D., Winthrop University. The readability of all these chapters is very good for either graduate or undergraduate level. This is certainly one of the most important overall strong points of the text. Daniel Liechty, Ph.D., DMin, ACSW, LCSW, Illinois State University. An Introduction to Group Work Practice is very comprehensive and well researched. It has the rigor that I would expect in a substantial treatment of this subject but the accessibility to the beginning student. It is very informative. Matthew R. Buckley, Ed.D., Delta State University. I believe the text includes virtually everything that should be included in a beginning group work textbook. Its completeness is a great strength. Kendra J. Tracy,2024-11-01 Person Environment Practice addresses a core but long neglected dimension in social work and human services practice accurate environmental assessment and strategic environmental intervention Despite the centrality of person environment as a key construct in direct practice the domain of environmental assessment intervention has received relatively little systematic attention in the practice literature For a variety of reasons the core focus of direct practice assessment and change strategies has centered more on person than environment This book seeks to redress that imbalance Ironically the relative lack of attention to environmentally oriented practice persists even as current demands of practice fall increasingly under the rubric of what we here call environmental intervention defined as both action in the environment and the process of transforming individual and collective perspectives through critical analysis of the impact of environmental conditions The authors argue that the ability to understand environment from the client s perspective and to function effectively in the environmental domain is central to many emergent areas of practice such as practice with extended families and personal networks practice from a strengths perspective and culturally competent practice In Person Environment Practice the authors offer a coherent critique and overview of environmental assessment and intervention congruent with the demands of both newly emerging and established interpersonal helping approaches within social work s domain Robert Halpern of the Erikson Institute for Advanced Studies in Child Development described the book as as clear thoughtful and subtle a discussion of how to consider the environment in interpersonal helping as I have seen in the literature and Anthony Maluccio of Boston College called the book a timely and exciting contribution with appreciation and respect for social work practices and qualities of inspiration as well as intellectual stimulation Susan P Kemp is assistant professor School of Social Work The University of Washington Seattle James K Whittaker is professor School of Social Work The University of Washington Seattle Elizabeth M Tracy is associate professor Mandel School of Applied Social Sciences Case Western Reserve University Cleveland Ohio **Diversity, Oppression, and Change** Flavio Francisco Marsiglia,Stephen Stanley Kulis,2015

The fully updated second edition of Diversity Oppression and Change introduces readers to the practice of culturally grounded social work and closely examines the diversity issues most relevant for practice policy and research in social work and allied fields In order for a social worker to affect positive change it is critical to understand how the intersectionality of social factors including race ethnicity social class gender sexual orientation and ability status affect not only the client but also the social worker The authors of this book unpack the complex theory based concepts related to oppression and privilege so that readers can learn to appropriately address the impact of historically based oppression for certain groups and communities Working with these communities to identify oppressive conditions culturally grounded social workers facilitate
