Future Wise Educating Our Children For A Changing World:

Future Wise David Perkins, 2014-08-04 How to teach big understandings and the ideas that matter most Everyone has an opinion about education and teachers face pressures from Common Core content standards high stakes testing and countless other directions But how do we know what today's learners will really need to know in the future *Future Wise Educating Our Children for a Changing World* is a toolkit for approaching that question with new insight There is no one answer to the question of what's worth teaching but with the tools in this book you'll be one step closer to constructing a curriculum that prepares students for whatever situations they might face in the future K-12 teachers and administrators play a crucial role in building a thriving society David Perkins founding member and co-director of Project Zero at Harvard's Graduate School of Education argues that curriculum is one of the most important elements of making students ready for the world of tomorrow In *Future Wise* you'll learn concepts curriculum criteria and techniques for prioritizing content so you can guide students toward the big understandings that matter Understand how learners use knowledge in life after graduation Learn strategies for teaching critical thinking and addressing big questions Identify top priorities when it comes to disciplines and content areas Gain curriculum design skills that make the most of learning across the years of education *Future Wise* presents a brand new framework for thinking about education Curriculum can be one of the hardest things for teachers and administrators to change but David Perkins shows that only by reimagining what we teach can we lead students down the road to functional knowledge *Future Wise* is the practical guidebook you need to embark on this important quest The Future of Teaching Guy Claxton, 2021-04-28 It's time for the educational slugfest to stop Traditional and progressive education are both caricatures and bashing cartoon images of each other is unprofitable and unedifying The search for a new model of education one that is genuinely empowering for all young people is serious and necessary Some good progress has already been made but teachers and school leaders are being held back by specious beliefs false oppositions and the limited thinking of orthodoxy Drawing on recent experience in England North America and Australasia but applicable round the world *The Future of Teaching* clears away this logjam of bad science and slack thinking and frees up the stream of much needed innovation This timely book aims to banish arguments based on false claims about the brain and poor understanding of cognitive science reclaim the nuanced middle ground of teaching that develops both rigorous knowledge and character and lay the foundations for a 21st century education worthy of the name Reconfiguring Pedagogy and Curriculum Practice in Light of Online Teaching Anamica Sinha, 2024-04-16 As one of the experimental projects initiated by Springer Nature for AI book content generation this book is the result of a collaboration between a human editor and an artificial intelligence algorithm to create a machine generated literature overview of research articles analyzing the importance of reconfiguring restructuring and re-evolving educational practices Each chapter presents summaries of predefined themes and provides the reader with a basis for further exploration of the topic The pandemic has led academicians researchers

teachers students parents and even the government to penetrate and understand the challenges that it has brought and the importance of reconfiguring restructuring and re evolving educational practices Insight into the involvement of computer application and information technology can be a harbinger of a new education era This book precisely discusses these aspects and the future we are moving towards by inculcating technological changes in the educational curriculum

Humanizing Education with Dramatic Inquiry Brian Edmiston, Iona Towler-Evans, 2022-06-30 Humanizing Education with Dramatic Inquiry provides a comprehensive rationale for why and how dramatic inquiry can be used by any teacher to humanize classroom communities and the subject areas being explored with students Written by teacher educators Brian Edmiston and Iona Towler Evans the book re evaluates the radical humanizing dramatic enquiry pedagogy of British educator Dorothy Heathcote as developed by the authors in their own teaching using her three approaches Process Drama Mantle of the Expert and the Commission Model Through scholarly yet practical analysis of extended examples drawn from their own classroom teaching the volume demonstrates how teachers can collaborate with students of all ages dispositions presumed abilities and cultural backgrounds to transform classroom life into a richly humanizing curious inquiring imaginative community This book will appeal to educators and teacher educators not only those open to using drama pedagogies in classrooms and in therapy but also to those engaged in applied theatre Additionally it will interest those in literacy and education in general who are committed to inclusive critical antiracist anti oppressive and artistic practices
