A Southern Panther James R. Tracy, 2025-04-01 A dialogue on hope and persistence between a movement mentor and author educator and organizer James R Tracy Malik Rahim served as the chair of the New Orleans Black Panther Party for Self Defense Since that time he has never stopped organizing In a series of candid interviews with James R Tracy Rahim discusses his involvement in struggles to defend Public Housing free political prisoners and rebuild New Orleans post Katrina His unique approach to organizing updating the politics of intercommunalism rainbow coalitions and municipalism offer vital lessons for today's social movements Also includes interviews conducted by Malik Ismail of The Vanguard Show podcast Jessica Gingrich of the Many Roads to Here podcast and Mansa Musa of the Rattling the Bars radio show on The Real News Network Legacy Left publishes small books interviewing movement elders about the lessons they want to share with the next generations What radical visions of the past will provide inspiration for today What old strategies should be jettisoned How does one maintain their political commitments throughout the decades We are nostalgic for nothing yet against amnesia We learn from the past while charting new paths and following new visions

Living and Working Dogma, 2022-05-24 An argument against the ideology of domesticity that separates work from home lavishly illustrated with architectural proposals for alternate approaches to working and living Despite the increasing numbers of people who now work from home in the popular imagination the home is still understood as the sanctuary of privacy and intimacy Living is conceptually and definitively separated from work This book argues against such a separation countering the prevailing ideology of domesticity with a series of architectural projects that illustrate alternative approaches Less a monograph than a treatise richly illustrated the book combines historical research and design proposals to reenvision home as a cooperative structure in which it is possible to live and work and in which labor is socialized beyond the family freeing inhabitants from the sense of property and the burden of domestic labor The projects aim to move the house beyond the dichotomous logic of male female husband wife breadwinner housewife and private public They include the reinvention of single room occupancy as a new model for affordable housing the reimagining of the simple tower and plinth prototype as host to a multiplicity of work activities and enlivening street life and a plan for a modular adaptable structure meant to house a temporary dweller All of these design projects conceive of the house not as a commodity the form of which is determined by its exchange value but as an infrastructure defined by its use value
