Dissemination And Implementation Of Evidence Based Practices In Child And Adolescent Mental Health:

Dissemination and Implementation of Evidence-Based Practices in Child and Adolescent Mental Health Rinad S. Beidas, Philip C. Kendall, 2014-05-20 Mental health disorders are common in youth impacting up to 1 in 5 children and adolescents Typically mental health difficulties result in impaired functioning and lower quality of life for both youth and their families Fortunately there are psychosocial treatments for the mental health needs of youth that have earned the evidence based label However these treatments are not widely available and it is estimated that it can take up to 17 years for them to be transported into community settings As a result a new field of dissemination and implementation DI science has emerged to address this problem Dissemination refers to the transfer of information about evidence based practices to community settings and implementation refers to active strategies to assist adoption of evidence based practices in community settings Dissemination and Implementation of Evidence Based Practices in Child and Adolescent Mental Health is the first book to bring together the world s foremost experts in implementation science and evidence based practices for youth to provide the latest findings around DI for children and adolescents Chapters provide comprehensive coverage of the science of dissemination and implementation across contexts disorders and international perspectives This volume will be an essential resource to implementation scientists and scholars instructors in doctoral level training programs and graduate students as well as policymakers community mental health clinicians and administrators school administrators researchers and other mental health professionals

Dissemination and implementation of evidence-based practices in child and adolescent mental health services Rinad Beidas, 2014 *Family-Based Intervention for Child and Adolescent Mental Health* Jennifer L. Allen, David J. Hawes, Cecilia A. Essau, 2021-03-11 The most effective treatments for child and adolescent psychopathology are often family based emphasising the active involvement of family members beyond the referred individual This book details the clinical skills knowledge and attitudes that form the core competencies for the delivery of evidence based family interventions for a range of mental health problems Offering practical case studies to illustrate treatment principles and discussing barriers to treatment and problem solving in relation to common difficulties Covers topics such as anxiety attention deficit hyperactivity disorder sleep and eating disorders Therapist competencies are thoroughly examined from the role they play in severe complex cases and in achieving successful outcomes to commonly misunderstood aspects of family based interventions and how they can be enhanced Clinical approaches to working with diverse families and those of children affected by parental psychopathology child maltreatment and family violence are also explored Essential reading for psychologists psychiatrists paediatricians mental health nurses counsellors and social workers

Handbook of Forensic Mental Health Services Ronald Roesch, Alana N. Cook, 2017-05-18 Handbook of Forensic Mental Health Services focuses on assessment treatment and policy issues regarding juveniles and adults in the criminal and civil systems Uniquely this volume is designed for professionals who deliver mental health services rather than researchers Just

like its parent series its goal revolves around improving the quality of mental health care services in forensic settings It achieves this by integrating the findings related to clinical practice administration and policy from trends and best practice internationally that mental health professionals can implement **Dissemination and Implementation of**

Evidence-Based Psychological Interventions R. Kathryn McHugh,David H. Barlow,2012-04-17 The lack of widely available effective mental health care presents a major public health problem This volume describes the rapidly expanding area of dissemination and implementation of evidence based psychological interventions Leading efforts internationally to improve access to effective care are highlighted by the leaders of these programs Methods and Applications in Implementation Science Mary E. Northridge,Donna Shelley,Thomas G. Rundall,Ross C. Brownson,2019-10-15 The purpose of this Research Topic is to share the latest developments in the methods and application of implementation science Briefly implementation science is the study of methods to promote the adoption and integration of evidence based practices interventions and policies into routine health care and public health settings Implementation research plays an important role in identifying barriers to and enablers of effective health systems programming and policymaking and then leveraging that knowledge to implement evidence based innovations into effective delivery approaches **The Oxford Handbook of Clinical Child and Adolescent Psychology** Thomas H. Ollendick,Susan W. White,Bradley A. White,2018-11-13 At the founding in 1896 of the first psychological clinic dedicated to children and adolescents the study of the psychological treatment of young people lagged behind that of adults and the basic psychopathology underlying mental disorders in this population was largely ignored Since those early days the field has evolved steadily and in recent years exponentially The Oxford Handbook of Clinical Child and Adolescent Psychology is a state of the science volume providing comprehensive coverage of the psychological problems and disorders of childhood International in scope and penned by the discipline s most eminent scientists and practitioners the handbook begins with a section on conceptual and empirical issues followed by exceptional content on specific psychiatric disorders such as intellectual disability externalizing and internalizing disorders communication disorders schizophrenia and bipolar disorder personality disorders and many more The third section offers chapters on special problems in childhood and adolescence including divorce the incarceration of parents suicide and non suicidal self injury bullying and medical illness A fourth section covers delivery of clinical services in diverse settings such as schools and prisons and the handbook concludes with several chapters on emerging trends and future directions for the field Conceptually rich and evidence based this handbook is an essential resource for students practitioners and researchers providing a cutting edge compendium of the latest theoretical and empirical developments by leaders of the discipline
