1. Discuss the definition of a *trade or business*. Why does it matter whether a taxpayer is classified as an employee or as self-employed?

Answer:

A trade or business is any activity that is engaged in for profit continually and regularly. The income from a sole proprietorship is netted with related ordinary and necessary business expenses to determine the effect on AGI. Expenses for employees would be Miscellaneous Itemized Deductions subject to the 2% of AGI limit; expenses for self-employed taxpayers would be *for* AGI deductions.
