United States A Circuit Rider's Wife 1910 was Georgia's most celebrated novel for nearly three decades. Now little read and almost forgotten, Harris's life offers a fascinating glimpse into a world nearly unimaginable to us today. In her writing, Harris poignantly and often humorously captured the paradoxes characteristic of the New South, a time and place of radically divergent goals. Pressed by national and economic demands to modernize and regional desire to hold on to the past, leaders struggled at the turn of the century to reconcile competing goals. Issues of race, class, and gender found in Harris's writing were at the heart of the struggle. In depicting the complexities of Harris's era, her life, and her personality, historian Catherine Oglesby offers a remarkable insight into early twentieth-century literature and culture. She demonstrates the ways Harris's work and life both differed from and were the same as other southern women writers and reveals the ways time and place intersect with race, class, gender, and other variables in the forging of identity. *American Book Publishing Record*, 2006

Lengermann, Jill Niebrugge-Brantley, 1998. This book presents the often overlooked contributions of 15 extraordinary women sociologists of the 19th and early 20th centuries, their work, history, and voices. Lengermann and Niebrugge-Brantley's thorough text is designed to give students a complete picture of each woman's contribution to sociology and social theory; they offer for each subject a biographical background, a thematic analysis of the social theory, and selections from the woman's own writings. The structure of the book allows instructors to craft their teaching around the text by focusing each chapter on one specific sociologist; instructors are free to incorporate the text as they like, serving as either a supplement to sociology and women's studies courses or as a primary text. *Michigan Journal of International Law*, 2013. **Twentieth-century Britain** Julie-Marie Strange, Francesca Carnevali, 2007.
