Examples And Explanations Bankruptcy And Debtor Creditor Sixth Edition:

Examples & Explanations for Bankruptcy and Debtor/Creditor Brian A. Blum, Samir D. Parikh, 2023-02-01 Through its previous seven editions *Examples and Explanations* will also give them a leg up when they encounter bankruptcy in other areas such as family law, taxation, real estate, business organizations, secured transactions, torts, and others. New to the 8th Edition: New problems addressing current bankruptcy issues including mass tort bankruptcies like Purdue Pharma and Boy Scouts of America; New cases throughout and discussion of recent developments in the law including unique insights into 363 asset sales, fraudulent transfer law, 524 g small business bankruptcy under Subchapter V, and dischargeability of student loan debt. New overview sections in each chapter designed to provide a summary of the Bankruptcy Code sections covered. Rewriting of text to enhance clarity, add hypotheticals, and integrate the discussion of new topics. Professors and students will benefit from *Examples & Explanations* designed to highlight fundamental issues covered in the textual part of the chapter and to allow students to self-test on topics discussed in the text. The Examples set out a factual scenario which is resolved in the Explanation with reference back to the textual material. Topics have been arranged within each chapter to allow students to see the interactions between different Code sections and to move from basic to more complex topics. Each chapter contains cross references to material in other chapters to enable students to link themes in various chapters and to see how the topics fit together to form a comprehensive system. The text is clearly written to be accessible to students and covers rules and concepts in the depth and breadth that is likely to be required of students in the bankruptcy debtor creditor course. One of a kind flowcharts and diagrams aid in understanding by the visual representation of concepts, processes, and relationships. The extensive glossary at the end of the book gives students a ready explanation of the meaning of the many terms of art that they may encounter in this area both in the book and in other materials.
