Existentialist Philosophy L. Nathan Oaklander, 1992 Introducing readers to existentialist philosophy through the writings of Kierkegaard Nietzsche De Beauvoir and others this unique anthology includes long selections from a relatively small number of existentialist thinkers exploring each philosopher's views in great detail and prefacing the essays with insightful introductions to help clarify material Offers creative explicative chapter introductions to help readers grasp material to be covered Provides in depth essays from select existentialist figures to allow a fuller view of each philosopher considered Illustrates existentialist philosophy in literature with Jean Paul Sartre's *No Exit* Albert Camus *The Stranger* and Heidegger's *Being and Time* Includes practical end of chapter glossaries to help readers with technical terms and unfamiliar jargon Now presents thought provoking study discussion questions as well as an updated bibliography For those interested in existentialism late 19th century thought and the philosophy of religion

Existentialist Thinkers and Ethics Christine Daigle, 2006 Twentieth century existential thinkers critical of traditional overly rationalistic approaches to ethics sought to provide a better account of what it means to be human in the world They articulated ethical views that respected the individual yet were fundamentally concerned with the Other and the ethical value of an authentic life Their philosophy has often been dismissed as unsuccessful Through examination of the thought of eight key figures in existentialism Kierkegaard Nietzsche Heidegger Arendt Camus Sartre Beauvoir and Merleau Ponty this collection demonstrates that such dismissals are unfounded Contributors tackle the difficulties raised by an existentialist ethics and show how each thinker successfully elaborated an ethics that provides a viable alternative to traditional ethical views

Existentialism Kevin Aho, 2014-04-10 Existentialism An Introduction provides an accessible and scholarly introduction to the core ideas of the existentialist tradition Kevin Aho draws on a wide range of existentialist thinkers in chapters centering on the key themes of freedom being in the world alienation nihilism anxiety and authenticity He also addresses important but often overlooked issues in the canon of existentialism with discussions devoted to the role of embodiment the movement's contribution to ethics politics and environmental and comparative philosophies as well as its influence on contemporary psychiatry and psychotherapy The enduring relevance of existentialism is shown by applying existentialist ideas to contemporary philosophical discussions of interest to a wide audience The book covers secular thinkers such as Heidegger Merleau Ponty Nietzsche Sartre Camus and Beauvoir as well as religious authors such as Buber Dostoevsky Marcel and Kierkegaard In this engaging and accessible text Aho shows why existentialism cannot be easily dismissed as a moribund or outdated movement In the aftermath of God's death existentialist philosophy engages questions with lasting philosophical significance questions such as Who am I and How should I live By showing how existentialism offers insight into what it means to be human the author illuminates existentialism's enduring value Existentialism An Introduction provides the ideal introduction for upper level students and anyone interested in knowing more about one of the most vibrant and important areas of philosophy today

Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement *Existential Therapies*

Mick Cooper, 2016-10-18 What does it mean to

practice therapy in an existential way What are the different existential approaches What are their strengths and limitations Focusing on practical face to face work with clients the book introduces students to six existential therapies highlighting areas of commonality and difference and discusses key figures and their contributions including Yalom van Deurzen Spinelli Frankl and Laing It outlines the critical perspectives and key debates and presents implications for practice reflection and further reading Fully updated to reflect current issues this book now includes Sections presenting research evidence for each approach An extended case study running through the book demonstrating how different therapies might approach the same case Chapter overviews questions for reflection and additional case studies of actual existential practice **Twenty-First**

Jean-Pierre Boulé, Enda McCaffrey, 2011-10-01 At the heart of this volume is the assertion that Sartrean existentialism most prominent in the 1940s particularly in France is still relevant as a way of interpreting the world today Film by reflecting philosophical concerns in the actions and choices of characters continues and extends a tradition in which art exemplifies the understanding of existentialist philosophy In a scholarly yet accessible style the contributors exploit the rich interplay between Sartre's philosophy plays and novels and a number of contemporary films including No Country for Old Men Lost in Translation and The Truman Show with film makers including the Dardenne brothers Michael Haneke and Mike Leigh This
