answer Not only has my initial motivation been maintained 18 Months now at point of writing this Book it has increased considerably In this Book I will explain how my dreams were motivated into achievable goals and how my motivation has been increased I will show you how these goals were set and where necessary modified to meet my expectations of achievement Let me first explain how I commenced planning my journey to bringing my dreams into reality I am now retired having worked on Britain s Railways for 50 years Most of these years were involved in training both Instructing and development In my mid twenties a survey was carried out that identified that a higher average of staff working on the Railway died within two years from retirement than any other Industry I can understand the reasoning as throughout my life work was a large and enjoyable commitment To suddenly stop work can take a large element out of your life If you have no replacement then retirement could and appeared by the survey results have devastating effects This survey has remained within my mind throughout my career and I always had thoughts about what I needed to do to replace my work on retirement This is where my dreams came into being and now that I am retired I m bringing those dreams into reality You may have noticed that I have not mentioned in any detail my dreams goals or destination This will be included in some detail within the content but this is just to show examples of how I have used them to progress in my journey and to help you plan and progress yours So if you wish to become a millionaire par golfer film star best selling author professional footballer director entrepreneur whatever your dreams are Read on
