The Disruption Continuum Alexander Manu,2025-08-14 The Disruption Continuum explores the profound and ongoing forces that drive societal transformation in our era of relentless technological change Examining pivotal historical moments reveals that disruption is not a one time occurrence caused by a disruptor event or technology but a continuous evolving process

Decolonizing Marketing Theory and Practice Hasan Gilani,2024-11-22 In academic institutions worldwide the call to decolonize the syllabus curriculum and the entire university experience is growing louder and more urgent Yet the conversation must extend beyond blogs hashtags and social media trends This book dives deep into the critical need to challenge and transform the foundations of marketing education Addressing the urgent need for deeper conversations this book delves into the multifaceted process of decolonizing marketing theory and practice to foster a more inclusive field Through an insightful collection of contributions this book critically examines the entrenched roots of colonization capitalism and inequality urging us to move beyond simply adding non white authors and non Western case studies to the curriculum Decolonization should begin with a focus on inclusivity and equality progressing towards the recognition and exploration of diverse contexts and paradigms Through rigorous analysis and innovative perspectives this book identifies key areas in marketing pedagogy that require decolonization urging a move away from exclusionary practices and Western centric ideologies It identifies crucial areas where texts knowledge and contexts need to be decolonized advocating for a paradigm shift from a culture of exclusion and Western centric ideologies to one that embraces inclusivity and a broad range of philosophical perspectives from the non Western world Aimed at researchers and academics in the field of marketing this book offers a profound exploration of teaching and

learning dynamics from a more inclusive and diverse perspective By fostering engagement with a wider audience it seeks to enrich the discourse around marketing education with a more nuanced and enriched perspective Decolonizing Marketing Theory and Practice is an essential resource for those committed to creating a more equitable and comprehensive understanding of marketing in a global context

The Digital Doctor: Hope, Hype, and Harm at the Dawn of Medicine's Computer Age Robert Wachter, 2015-04-10 The New York Times Science Bestseller from Robert Wachter
Modern Healthcare's 1 Most Influential Physician Executive in the US While modern medicine produces miracles it also delivers care that is too often unsafe unreliable unsatisfying and impossibly expensive For the past few decades technology has been touted as the cure for all of healthcare's ills But medicine stubbornly resisted computerization until now Over the past five years thanks largely to billions of dollars in federal incentives healthcare has finally gone digital Yet once clinicians started using computers to actually deliver care it dawned on them that something was deeply wrong Why were doctors no longer making eye contact with their patients How could one of America's leading hospitals give a teenager a 39 fold overdose of a common antibiotic despite a state of the art computerized prescribing system How could a recruiting ad for physicians tout the absence of an electronic medical record as a major selling point Logically enough we've pinned the problems on clunky software flawed implementations absurd regulations and bad karma It was all of those things but it was also something far more complicated And far more interesting Written with a rare combination of compelling stories and hard hitting analysis by one of the nation's most thoughtful physicians The Digital Doctor examines healthcare at the dawn of its computer age It tackles the hard questions from how technology is changing care at the bedside to whether government intervention has been useful or destructive And it does so with clarity insight humor and compassion Ultimately it is a hopeful story We need to recognize that computers in healthcare don't simply replace my doctor's scrawl with Helvetica 12 writes the author Dr Robert Wachter Instead they transform the work the people who do it and their relationships with each other and with patients Sure we should have thought of this sooner But it's not too late to get it right This riveting book offers the prescription for getting it right making it essential reading for everyone patient and provider alike who cares about our healthcare system
