The First Men in the Moon H Wells, 2018-07-20 Of the enormous body of work produced by H G Wells more than a book a year over the course of half a century the early science fiction novels that first made him famous have proved to be the most enduring and have earned him the sobriquet the father of modern science fiction In the 1901 classic *The First Men in the Moon* Wells reveals not only a fertile imagination at ease with biological and astronomical phenomena but also a passionate concern for man and society His first men in the moon prove to be the eccentric Mr Cavor and his traveling companion Mr Bedford who navigate a gravity defying sphere through space before executing a rough landing on the moon As castaways from earth they practice lunar locomotion get lost in the wilds of a moon jungle and confront intelligent life forms living in lunar caverns Through the adventures of these two earthlings the author is able to look at mankind from a distance and in his words burlesque the effects of specialization The result is a delightful tale filled with adventure romance and fantasy that is still capable of stirring the imagination of readers in the 21st century Wells s science fiction novels achieve a near poetry which makes them part of the popular mythology of their age the best of his work has a vitality a verve an imaginative compulsion unsurpassed by any of his contemporaries N C Nicholson author of *H G Wells*

[The First Men in the Moon](#) H. G. Wells, 2014-03-13 It is scarcely necessary to go into the details of the speculations that landed me at Lympne in Kent Nowadays even about business transactions there is a strong spice of adventure I took risks In these things there is invariably a certain amount of give and take and it fell to me finally to do the giving reluctantly enough Even when I had got out of everything one cantankerous creditor saw fit to be malignant Perhaps you have met that flaming sense of outraged virtue or perhaps you have only felt it He ran me hard It seemed to me at last that there was nothing for it but to write a play unless I wanted to drudge for my living as a clerk I have a certain imagination

and luxurious tastes and I meant to make a vigorous fight for it before that fate overtook me In addition to my belief in my powers as a business man I had always in those days had an idea that I was equal to writing a very good play It is not I believe a very uncommon persuasion I knew there is nothing a man can do outside legitimate business transactions that has such opulent possibilities and very probably that biased my opinion I had indeed got into the habit of regarding this unwritten drama as a convenient little reserve put by for a rainy day That rainy day had come and I set to work *The First Men in the Moon* H. G. Wells, 2018-05-02 When penniless businessman Mr Bedford retreats to the Kent coast to write a play he meets by chance the brilliant Dr Cavor an absentminded scientist on the brink of developing a material that blocks gravity Cavor soon succeeds in his experiments only to tell a stunned Bedford that the invention makes possible one of the oldest dreams of humanity a journey to the moon With Bedford motivated by money and Cavor by the desire for knowledge the two embark on the expedition But neither are prepared for what they find a world of freezing nights boiling days and sinister alien life in which they may be trapped forever We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience THE FIRST MEN IN THE MOON H.
