Central and Local Government Relations in Asia Naoyuki Yoshino, Peter J. Morgan, 2017 Sustainable and inclusive growth in emerging Asian economies requires high levels of public investment in areas such as infrastructure education health and social services The increasing complexity and regional diversity of these investment needs together with the trend of democratization has led to fiscal decentralization being implemented in many Asian economies This book takes stock of some major issues regarding fiscal decentralization including expenditure and revenue assignments transfer programs and sustainability of local government finances and develops important findings and policy recommendations

Spain International Monetary Fund. European Dept., 2015-08-14 This Selected Issues paper presents a preliminary assessment of recent labor market reforms in Spain where the 2012 labor market reforms are making a difference Wage moderation is contributing to a visible recovery in headline employment growth and the reforms have made the labor market more resilient to shocks Some evidence exists that the contribution of temporary contracts to employment growth has started to decrease However the reliance on temporary workers remains strong overall and further structural reforms will be required to reduce the still very high level of long term

structural unemployment **Advances in Local Public Economics** Minoru Kunizaki, Kazuyuki Nakamura, Kota Sugahara, Mitsuyoshi Yanagihara, 2019-02-23 This book introduces recent developments in both theoretical and empirical analyses of local public economics Theories of those economics as well as empirical analyses have been developed dramatically in various directions in recent years One direction has been to reflect real economic circumstances especially in Japan In the early 2000s Japan experienced the so called great merger or consolidation of municipalities in the Heisei era 1999 through the present with the number of municipalities shrinking from 3 232 to 1 821 for increasing administrative and financial efficiency This phenomenon is mainly due to a drastic change in demography in Japan the diminishing birthrate and aging population Following the consolidation regional coordination has been undertaken to raise overall administrative and financial efficiency In sum various types of public policies for tackling the decreasing birthrate and aging population have been carried out Urban sprawl and the timing of municipal mergers are dealt with from a broad point of view and public child care services and tax competition are investigated from a policy standpoint Another direction has been to incorporate new ideas for forming theoretical frameworks for local public finance most of which have been based on static situations In the recent trend toward globalization local governments have attended not only to the welfare of residents but also to the interests of regional economic development In addition decision making by local governments has tended to be affected by political activities Thus the endogenous growth setting and lobbying activities for the activities of local governments are discussed in the book With these new directions for analyses the author tackles the topics of tax competition cross border shopping local provision of public goods and soft budgets thus covering a broad range of aspects of local public finance

Handbook on Subnational Governments and Governance Claudia N. Avellaneda, Ricardo A. Bello-Gómez, 2024-03-14 This comprehensive Handbook analyses the political financial administrative and managerial dimensions of subnational governments It examines the profound differences between forms of subnational governance across the world as well as the common challenges faced by governments below the national level **Steering the Metropolis** Inter American Development Bank, United Nations Human Settlements Programme, Development Bank of Latin America, 2017-10-24 A distinctive feature of urbanization in the last 50 years is the expansion of urban populations and built development well beyond what was earlier conceived as the city limit resulting in metropolitan areas This is challenging the relevance of traditional municipal boundaries and by extension traditional governing structures and institutions Steering the Metropolis Metropolitan Governance for Sustainable Urban Development encompasses the reflections of thought and practice leaders on the underlying premises for governing metropolitan space sectoral adaptations of those premises and dynamic applications in a wide variety of contexts Those reflections are structured into three sections Section 1 discusses the conceptual underpinnings of metropolitan governance analyzing why political technical and administrative arrangements at this level of government are needed Section 2 deepens the discussion by addressing specific sectoral themes of mobility land use

planning environmental management and economic production as well as crosscutting topics of metropolitan governance finance and monitoring and evaluation Section 3 tests the concepts and their sectoral adaptations against the practice with cases from Africa America Asia and Europe

Fiscal Federalism-Decentralisation and the size of government Ina Walcherberger,2016-02-23 Master s Thesis from the year 2015 in the subject Business economics Economic Policy grade language English abstract A large number of countries are trying to improve their ability to serve their inhabitants more efficiently and more effectively To accomplish this ambition a reawakening of interest in the practices and in the principles and of fiscal federalism is mandatory Questions arise such as How many taxes are necessary to provide an efficient amount of local public goods How should the taxes be allocated most reasonable between the different levels of governments Which level of government should have how much freedom of choice concerning tax revenues and tax expenditures or differently which degree of decentralisation is most constructive Generally two conflicting possibilities to provide an efficient level of local public goods are existing The first one proposes a high degree of centralisation of the tax system which would lead if the government is totally benevolent to an efficient output of local public goods An argument against centralisation is that a centralised system cannot serve the different needs and preferences of the inhabitants of unequal regions The second perception states that an efficient level of local public can be provided if the system is decentralised A possible disadvantage of decentralisation is the appearance of tax competition which may lead to an inefficient low level of local public goods The discrepancy between these two conflictive systems is going to be discussed in this thesis Furthermore politico economic mechanisms which are supposed to explain the correlation between degree of centralisation and size of government are introduced which leads to the research question of this thesis Does a decentralised tax system lead to a smaller size of

government compared to a centralised tax system Which politico economic mechanisms are responsible for this correlation In relation to these questions different approaches are discussed underlined by theoretical and empirical models The first one a public choice approach states that central governments operate like monopolists or leviathans extracting as much tax revenues from the citizens as possible The aim is not to maximise social welfare but to increase their control over the resources of the economy This approach was formulated by Brennan s and Buchanan s Leviathan hypothesis 1980 stating subject to the above mentioned conditions that a higher degree of decentralisation leads to a smaller size of government

Fiscal Decentralization in Developing and Transition Economies Anwar Shah,2004 Fiscal Federalism and Political Decentralization Nuria Bosch,José M. Durán,2008-01-01 This highly original book analyzes political decentralization and fiscal federalism in Canada and Germany both traditional federal countries and in Spain a unitarian country engaged in the last two decades in a process of decentralization The three key issues required for a well designed financing system are analyzed in depth herein namely tax assignment equalization grants i e redistribution of money from the wealthy regions or the national government to poorer regions and the role of regional government in the administration of taxes Fiscal Federalism and Political Decentralization will be of particular interest to academics and researchers of economics public economics public finance and public choice It will also appeal to politicians and policy makers as well as organizations and agencies related to the economy and fiscal federalism **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Fiscal fragmentation in decentralized countries* Richard Miller Bird,2014-05-14 Most countries developed and developing are fiscally decentralized with regional and local governments of varying importance In many of these countries some of these sub national governments differ substantially from others in terms of wealth ethnic religious or linguistic composition This book considers how fiscal arrangements may strengthen or weaken national solidarity and the effectiveness with which public services are provided In particular the nation s ability to cope with changes created by decentralization is explored **The European Union** Susan Senior Nello,2009 In The European Union Economics Policies and History 2nd Edition the author builds on the success and popularity of the first edition by using a combination of economics politics and history to give the reader a strong grounding in European integration and why and how policies are put in place The book is designed to appeal to a broad range of people studying the European Union Susan Senior Nello's clear non technical explanations and use of appendices for more detailed discussion of theory ensures the book will appeal to students from a range of disciplines **Decentralization and Development. Fiscal federalism in theory and practice** Samuel Mäurer,2022-03-28 Seminar paper from the year 2019 in the subject Economics Finance Johannes Gutenberg University Mainz language English abstract This seminar paper deals with a critical discussion of the economic insight from chapter 8 Decentralization and development of the Handbook on Fiscal

Federalism Decentralization is generally defined as the transfer of certain administrative and fiscal functions or powers of a central authority to several local authorities The main advantage of local decentralization is that local governments are more efficient at providing certain public services compared to the higher levels of government Oates 1972 The chapter focuses on the type of decentralization in developing and transition economies on the transfer of political decision making power to subnational levels of government and cases where local community organizations formally participate in the implementation of funded and centrally directed projects It s important to mention that the chapter distinguishes decentralization in the sense of decentralization of political decision making power from administrative delegation of functions of the central government to the local one However the effects of a policy of decentralization may differ sustainably Like the common case when the central government delegates responsibility for social sector expenditure to local authorities in the form of unfunded mandates which results in a closure of the social programmes Decentralization can be used to serve the political power of the central government to dispel some authority when the central control might be threatened by regional interest During the apartheid regime in South Africa decentralization was used as an instrument of central control and racial division But on the other hand it also has positive effects where decentralization is the result of the recent transition from authoritarianism to democracy as in countries such as Brazil or Indonesia Handbook of Fiscal Federalism E. Ahmad,2006 This volume provides comprehensive coverage of fiscal federalism by some of the leading scholars in the field This Handbook is an excellent addition to the present discourse on the role of the state in fiscal matters This reviewer would recommend this book as a required text for a graduate or senior class on public finance or economic development Researchers in economic development public finance and fiscal policy likewise would find this volume useful Highly recommended Upper division undergraduate through professional collections J Raman Choice This major Handbook addresses fiscal relations between different levels of government under the general rubric of fiscal federalism providing a review of the latest literature as well as an invaluable guide for practitioners and policy makers seeking informed policy options The contributors include leading lights in the field many of whom have themselves made seminal contributions to the literature Comprehensive and wide in coverage the issues covered range from federal systems to other forms of intergovernmental relations such as supra national constructs namely the European Union unitary states regional systems and more decentralized operations including community level organizations The political economy approach emphasizes the importance of institutional arrangements including the legal political and administrative aspects and information flows to ensure that there are appropriate incentives and sanctions to generate good governance This Handbook also devotes attention to emerging issues such as environmental protection the sharing of natural resources among levels of government corruption and the impact of federalism and decentralization on national unity It will be a vital reference tool for the area for many years to come **Fiscal Federalism in Unitary States** Per Molander,2004 Decentralism of political power to regions and local government occurs worldwide in

response to demands from the periphery Such devolution of power raises a number of problems political financial and legal By gathering together important papers from a series of workshops sponsored by the SNS Constitutional Project and the Center for European Integration Studies this volume presents a number of these problems from a truly interdisciplinary perspective The authors believe that fiscal federalism while originating in formally federal states is relevant also to the analysis of state local relationships in unitary states with some degree of regional or local authority Among the topics they cover are the division of responsibilities and powers of taxation bailouts systems of equalization and state grants as well as problems related to democracy and citizens rights While the book s primary focus is Nordic its international perspective is enhanced by contributions from Europe Canada and the U S
