Five Screenplays By Preston Sturges:

Five Screenplays by Preston Sturges Preston Sturges, 1986-02-26 Here are five comic masterpieces by Preston Sturges who has been called Hollywood's greatest writer-director with emphasis on the former. The scripts are drawn from the great period between 1939 and 1944 which Andrew Sarris called one of the most brilliant and most bizarre bursts of creation in the history of cinema. They are astonishingly readable and deliciously funny. Brian Henderson's introduction provides an overview of Sturges' criticism and brief biographical material. Each script is preceded by a prefatory essay discussing its evolution. The insights provided by this volume will be useful to film students and aspiring screenwriters and fascinating to anyone interested in screen comedy. Virtually all the illustrations showing Sturges at work are published here for the first time. The collection includes *The Great McGinty*, *Christmas in July*, *The Lady Eve*, *Sullivan's Travels*, and *Hail the Conquering Hero*.

Four More Screenplays Preston Sturges, 1995 Henderson has a fine feel for the emotional implications of the slightest changes in the story lines or the scripts and consequently one has great confidence in the significances he attributes to the various stages of each film. William Nestruck, University of California Berkeley.

Alternative Scriptwriting Ken Dancyger, Jessie Keyt, Jeff Rush, 2023-01-31 The three act structure is so last century. Unlike other screenwriting books, this unique storytelling guide pushes you to break free of tired formulaic writing by bending or breaking the rules of storytelling as we know them. This new edition dives into all the key aspects of scriptwriting including structure, genre, character, form, and tone. Authors Ken Dancyger, Jessie Keyt, and Jeff Rush explore myriad alternatives to the traditional three act story structure, going beyond teaching you how to tell a story by teaching you how to write against conventional formulas to produce original, exciting material. Fully revised and updated, the book includes new examples from contemporary and classic cinema and episodic series, as well as additional content on strategies for plot, character, and genre; an exploration of theatrical devices in film; and approaches to scriptwriting with case studies of prolific storytellers such as Billy Wilder, Kelly Reichardt, Phoebe Waller-Bridge, and Kathryn Bigelow. Ideal for students of screenwriting and professional screenwriters wishing to develop their craft and write original scripts.

Film Dialogue Jeff Jaeckle, 2013-06-25 *Film Dialogue* is the first anthology in film studies devoted to the topic of language in cinema, bringing together leading and emerging scholars to discuss the aesthetic, narrative, and ideological dimensions of film speech that have largely gone unappreciated and unheard. Consisting of thirteen essays divided into three sections: genre, auteur theory, and cultural representation, *Film Dialogue* revisits and reconfigures several of the most established topics in film studies in an effort to persuade readers that spectators are more accurately described as audiences that the gaze has its equal in eavesdropping and that images are best understood and appreciated through their interactions with words. Including an introduction that outlines a methodology of film dialogue study and adopting an accessible prose style throughout, *Film Dialogue* is a welcome addition to ongoing debates about the place, value, and purpose of language in cinema.

Crowds,

Power, and Transformation in Cinema Lesley Brill, 2006 A noted critic brings crowd theory to Film Studies offering a bold new analysis of the pervasive cinematic themes of transformation and power From *Intolerance* to *The Silence of the Lambs* motion pictures show crowds and power in complex usually antagonistic relationships Key to understanding this opposition is an intrinsic capability of the cinema transformation Making unprecedented use of Elias Canetti's *Crowds and Power* Lesley Brill explores crowds power and transformation throughout film history The formation of crowds together with crowd symbols and representations of power create complex unifying structures in two early masterpieces *The Battleship Potemkin* and *Intolerance* In *Throne of Blood* power seekers become increasingly isolated while the crowd of the dead seduces and overwhelms the living The conflict between crowds and power in *Citizen Kane* takes place both within the protagonist and between him and the people he tries to master North by Northwest *Killer of Sheep* and *The Silence of the Lambs* are rich in hunting and predation and show the crowd as a pack transformation true false and failed is the key to both attack and escape Brill's study provides original insights into canonical movies and shows anew the central importance of transformation in film Film theorists critics and historians will value this fresh and intriguing approach to film classics which also has much to say about cinema itself and its unique relationship to mass audiences **Three More Screenplays by Preston Sturges**
