First Person An Astonishingly Frank Self Portrait By Russias President:

First Person Vladimir Putin, Nataliya Gevorkyan, Natalya Timakova, Andrei Kolesnikov, 2000-05-05 An astonishingly frank self portrait by Russia's president Karl W. Ryavec, 2005 This unique study provides an original nitty gritty view of the true nature and operation of Russia's state bureaucracy from the imperial period to the present including the Putin presidency The only book length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times this detailed work sheds important new light on Russian public administration an often overlooked but key barrier to Russian normalization and democratization *Dancing on Bones* Katharine P. Stallard, Katie Stallard, 2022 Dancing on Bones is the story of how the leaders of China Russia and North Korea manipulate the past to serve the present and secure the future of authoritarian rule History didn't end Democracy didn't triumph America's leading role in the world is no longer assured Instead authoritarian rule is on the rise and the global order established after 1945 is under attack This is the phenomenon Katie Stallard tackles in Dancing on Bones probing the version of history that leaders in China Russia and North Korea teach their citizens These three states consistently top the list of threats to the global order and US national security All are governed by autocratic regimes All have nuclear weapons and believe that the era of American hegemony is fading All three share a sense of historical grievance rooted in the wars of the last century specifically World War II and the Korean War that their leaders exploit to shore up popular support at home and fuel increasingly aggressive foreign policy Decades after the real guns fell silent these wars rage on in China Russia and North Korea reimagined in popular media public memorials and patriotic education campaigns This is not history as it was but as the current rulers need it to be Since coming to power in China Xi Jinping has almost doubled the length of the war with Japan Vladimir Putin has brought back bombastic military parades through Red Square and Kim Jong Un has invested vast sums in rebuilding war museums in his impoverished state while historians who try to challenge the official line are silenced and jailed But this didn't start with the current leaders and it won't end with them Drawing on first hand on the ground reporting Dancing on Bones is the story of how the leaders of China Russia and North Korea manipulate the past to serve the present and secure the future of authoritarian rule If we want to understand where these three nuclear powers are heading we must understand the stories they are telling their citizens about the past Peter Ho's Menagerie Shashi Jayakumar, Jeanette Kwek, Adrian W J Kuah, 2024-07-30 Peter Ho former head of Singapore's Civil Service has during his decades of public service brought to bear a deep appreciation of futures thinking complexity and strategic surprise to multiple aspects of governance and security This volume presented to Peter on the occasion of his 70th birthday brings together contributions from his friends from Singapore and beyond and collaborators over many years of work covering several fields The contributions touch on areas such as foresight wicked problems black swans challenges to governance Artificial Intelligence and intelligence matters The foreword is written by Teo Chee Hean Singapore's Senior Minister and Coordinating Minister for National Security and a longstanding friend of Peter **The**

Russian Military Resurgence René De La Pedraja, 2018-12-11 The transition from the Soviet to the post 1991 Russian military is a fascinating story of decline and reinvention The Soviet army suffered a slow demise dissolving in 2000 and only gradually reforming based on radically different principles The First Chechnya War 1994 1996 was the lowest point for the Soviet military but the Second Chechnya War 1999 2004 saw the initial stirrings of the new Russian army The Five Day War with Georgia in August 2008 was its first major success and marked Russia's return to world power status Lively accounts and maps describe the actions of these wars along with the Crimea operation of 2014 the separatist struggles in eastern Ukraine and the ongoing Russian intervention in Syria
