**Conflicted Identities** Alexandra Staub, 2016      **American Book Publishing Record**, 2007      Architecture and Identity Peter Herrle, Erik Wegerhoff, 2008 This book brings together complex fields of knowledge and globally splintered discourses on a subject that is experienced not only by scholars but in the everyday lives of people around the world There is a common complaint about the loss of identity which to a substantial degree is being associated with the built environment in cities and specifically with their architecture Architecture and Identity takes a global multidisciplinary look on how identities in contemporary architecture are constructed The general hypothesis underlying this book is that in a globalized world identity in architecture cannot be easily derived from distinct indigenous patterns The book presents forty contributions from various disciplines aiming to destroy the myth of an inheritable or otherwise prefabricated identity Some authors dismantle constructs of identity that have long been considered as solid and unbreakable while others meticulously unravel the construction process of identities in      **After Identity** Dan Danielsen, Karen Engle, 1995      Conflicts of Identity in Architecture Edmund Yu, 2005      **Negotiating Identities** Helen Vella Bonavita, 2011 Preliminary Material Tourism Self Representation and National Identity in Post Socialist Hungary Ir n Annus Black Magic Women On the Purported Use of Sorcery by Female Foreign Domestic Workers in Singapore Audrey Verma Staying True to England Representing Patriotism in Sixteenth Century Drama Helen Vella Bonavita How Australian Muslims Construct Western Fear of the Muslim Other Lelia Green and Anne Aly Fatwa and Foreign Policy New Models of Citizenship in an Emerging Age of Globalisation Ron Geaves Choosing to Be a Stranger Romanian Intellectuals in Exile Oana Elena Strugaru Infinite Responsibility for the Other in Emmanuel Levinas and Anne Michaels Fugitive Pieces Joshua Getz The Breaking Asunder of Fanny Kemble Trauma and the Discourse of Hygiene in Journal of a Residence on a Georgian Plantation in 1838 1839 Winter Werner Ancient Egypt as Europe s Intimate Stranger Kevin M DeLapp Fictions of a Creole Nation Re Presenting Portugal s Imperial Past Elsa Peralta

*Young People's Literacies in the Digital Age* Luci Pangrazio, 2018-11-12 What do young people really do with digital media Young People s Literacies in the Digital Age aims to debunk the common myths and assumptions that are associated with young people s relationship with digital media In contrast to widespread notions of the empowered and enabled digital native the book presents a more complex picture of young people s digital lives Focusing on the notion of critical digital literacies this book tackles a number of pressing questions that are often ignored in media hype and political panics over young people s digital media use including In what ways can digital media enhance shape or constrain identity representation and communication How do digital experiences map onto young people s everyday lives What are young people s critical understandings of digital media and how did they develop these What are the dominant understandings young people have of digital media and in whose interests do they work These questions are addressed through the findings of a year of fieldwork with groups of young people aged 14 to 19 years Over the course of eight chapters the experiences and

views of these young people are explored with reference to various academic literatures such as digital literacies media and communication studies critical theory and youth studies Starting with their early socialisation into the digital context the book traces the continuities contradictions and conflicts they encounter as part of their practices Written in a detailed but accessible manner this book develops a unique perspective on young people s digital lives *Identity by Design* Georgia Butina Watson,Ian Bentley,2016-08-17 In a world of increasing globalisation where one high street becomes interchangeable with the next *Identity by Design* addresses the idea of place making and the concept of identity looking at how these things can be considered as an integral part of the design process Structured around a series of case studies including Prague Mexico Malaysia and Boston the authors discuss an array of design approaches to explain and define the complex interrelated concepts The concluding sections of the book suggest ideas for practical application in future design processes With full colour images throughout this book takes the discussion of place identity to the next level and will be valuable reading for all architects urban designers planners and landscape architects **After Belonging** Samir Pandya,2024-08-26 This book breaks new ground in demystifying the relationship between architecture nationhood and other forms of collective identity It attempts to extricate the oppressive ideology of national identity entrenched within the very idea of architecture The chapters were first published in the journal *National Identities* *Identity Conflicts* Esther Gottlieb,2017-10-06 Social conflicts are ubiquitous and inherent in organized social life This volume examines the origins and regulation of violent identity conflicts It focuses on the regulation of conflict the constraining directing and repression of violence through institutional rules and understandings The core question the authors address is how violence is regulated and the social and political consequences of such regulation The contributors provide a multidisciplinary multi regional analysis of identity conflicts and their regulation The chapters focus on the forging and suppression of religious and ethnic identities problematic national identities the recreation of identity in post conflict peace building efforts and the forging of collective identities in the process of democratic state building The instances of violent conflict treated here range across the globe from Central and South America to Asia to the Balkans and to the Islamic world One of the key findings is that conflicts involving religious ethnic or national identity are inherently more violence prone and require distinctive methods of regulation Identity is a question both of power and of integrity This means that both material and symbolic needs must be addressed in order to constrain or regulate these conflicts Accordingly some chapters draw on a political economy approach that places primary emphasis on resources organization and interests while others develop a cultural approach focusing on how identities are constructed grievances defined blame attributed and redress articulated This volume offers new ideas about the regulation of identity conflicts at both the global and local level that engage both tradition and modernization It will be of interest to policymakers political scientists human rights activists historians and anthropologists **Routledge Series in Identity Politics** ,2012 Identity Group for the Study of Identities and Identity Practices.
