The

FICTION

R.D., a 36-year-old col-
professor, is informed by his
physician that he has contracted a
sexually transmitted disease. The patient
is certain that he contracted this during a
single sexual encounter while away at a confe-
rence. He asks that the physician not inform his wife
for it would "destroy their marriage." R.D. w-
whether his wife, who is also the physician's
patient, can be treated without her knowledge

Fiction Bioethics Reflective Ebook:

Philosophy for Public Health and Public Policy James Wilson, 2021-09-09 Public health has never been more important or more controversial What states do and fail to do makes a significant difference to the lives we are able to lead Putting public health first would allow improvements to the health of everyone especially the worst off Yet many citizens actively oppose state interference to improve population health complaining that it encroaches on personal liberty How should policymakers reconcile these conflicting priorities This groundbreaking book argues that philosophy is not just useful but vital for thinking coherently about priorities in health policy and public policy Novel theoretically rigorous yet practical Philosophy for Public Health and Public Policy examines why it is so common for public policies to fail in practice to improve the problems they aim to solve and what to do about this It argues that a shift to complex systems approaches to policymaking is overdue Philosophers need to become much more attuned to the contingency and messiness of real world policymaking and to the ways in which philosophical tools such as thought experiments are frequently unreliable This book also provides an ethical framework for public health policy It argues that public health is a right of citizens alongside more familiar rights such as liberty and security Public health should not be thought of merely as interference with the rights that individuals have but as necessary to protect these rights Chapters explore implications for resource allocation personal responsibility health equity and the control of communicable disease
