FIDIC Users' Guide Brian W. Totterdill, 2006 The FIDIC Conditions of Contract for Construction and the Conditions of Contract for Plant and Design Build known as the 1999 Red Book and the 1999 Yellow Book were first published in 1999 and have been used for a large number of contracts around the world During 2005 FIDIC and the multilateral development banks cooperated to publish the MDB Harmonised Conditions of Contract for Construction This book is a revised and extended edition of the authors earlier guides

Practical Rock Mechanics Steve Hencher, 2015-08-28 This text provides an introduction for graduate students as well as engineering geologists and geotechnical engineers It is also relevant to those working in nuclear waste disposal and oil and gas production The early chapters deal with fundamental mechanics and physics as they apply to rock masses It provides an introduction to the geological processes that give rise to the nature of rock masses and control their mechanical behavior It discusses stresses in the earth's crust and explains methods of measurement and prediction

International Construction Law Wolfgang Breyer, 2024-03-29 The construction industry routinely operates across international borders which means that construction professionals need to have a good understanding of how legislation in different jurisdictions might affect their work This book is an in depth analysis of international construction law from all the major jurisdictions of the world alongside their relevant contract law principles helping the reader to prepare for the complexity of an international construction project The book begins by introducing the major families of law before looking at individual jurisdictions Each chapter is written by an experienced legal professional operating in that region and covers subjects such as taking over defects liabilities warranties design issues termination bonds and guarantees limitation of liability and more The systems included are German civil system Germanic code French civil system Napoleonic code English common law system GCC countries civil law system with emphasis on UAE Qatar Saudi Arabia and Egypt Nordic legal system Chinese civil system Finally the book will discuss the national standard construction contracts used in the differing legal systems and the widely used FIDIC contracts The combination of truly international coverage with the practical insight of experienced practitioners means that this book will be invaluable to any professional involved in the construction industry including lawyers project managers contractors and investors as well as academics in the field

Introduction to Construction Contract Management Brian Greenhalgh, 2016-08-05 This book is an introduction to construction contract administration and management covering the delivery and execution stage of a construction project and the various issues which the contract administrator needs to proactively manage It can therefore be used as a contract administrator's resource book covering what needs to be done and why to keep a construction project on track from a commercial and contractual perspective It is particularly appropriate for students and new practitioners from varied construction professions and whilst it covers domestic UK projects it will be particularly useful for those studying and working on international projects where terminology procedures and legal systems may differ from the UK The content is

split into four parts and is subdivided into easy to read chapters replicating the timeline of a project during the construction stage Part A covers initiating the construction stage project delivery mechanisms contract administration and health and safety management Part B covers managing the construction stage contractor performance and relationship management Part C covers finalising the construction stage project completion and close out Part D covers claims and disputes Introduction to Construction Contract Management will be particularly useful for students enrolled on global construction programmes together with international distance learning students and non cognate graduates starting out on an international career in construction contract administration and quantity surveying **Consulting Engineering Practice**
