ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird s eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies

An analysis Tarcisius Mukuka,2021-04-19 Essay from the year 2021 in the subject Didactics Theology Religion Pedagogy grade 10 Kwame Nkrumah University language English abstract This present article aims at debunking the popular notion abroad of a prophet as someone who foretells the future in the manner of someone who has a speed dial to God and is afforded a telescopic view into the future not available to ordinary mortals A Zambian online newspaper Zambian Eye reported that Prophet T B Joshua was able to prophesy the enmity between President Edgar Lungu of Zambia and his nemesis Hakainde Hichilema after the death in office of the incumbent Michael Chilufya Sata But prophetic revelations know no bounds Their predictions range from predicting who in their congregation will be driving a BMW or will be pregnant this time next year presumably with a little libidinal help from the prophet showing the woman's husband how to do it while she ecstatically reaches orgasm shouting Alleluia to who will win the elections in the United States because God is really bothered about the

political affiliation of US presidents because of the country's privilege of exceptionalism. The paper tries to show that all this nouveau prophetism is a misunderstanding of the office of prophet in both the Hebrew Bible and Christian Bible. Rather than foretell the future, the prophet is someone who forth tells it as it is, whether about the past, present, or future doesn't matter. In the process, the popularity of modern prophets as God's merchandisers usually for personal gain is discussed. As in the Hebrew Bible and Christian Bible, there were always true and false prophets. How to tell the difference, one from the other, was the recent conversation I had with my colleague whose niece had been haunted by a modern false prophet. If the truth be told, and to be fair to latter-day prophets, the choice is not always binary; that is, either true or false. There are fifty shades of grey in between. To adapt a trope from E. L. James' erotica of the same title, ranging from the genuine to the charlatan or spiritual conman. **Vanity Fair**, 2015
