**Social and Cultural Dynamics** Pitirim Sorokin, 2017-09-29 This classic work is a revised and abridged version in a single volume of the work which more than any other catapulted Pitirim Sorokin into being one of the most famed figures of twentieth century sociology Its original publication occurred before World War II This revised version written some twenty years later reflects a postwar environment Earlier than most Sorokin took the consequences of the breakdown of colonialism into account in discussing the renaissance of the great cultures of African and Asian civilization Other than perhaps F S C Northrop no individual better incorporated the new role of the Indian Chinese Japanese and Arabic peoples in this postwar world Sorokin came to view social and cultural dynamics in terms of three major processes a major shift of mankind s creative center from Europe to the Pacific a progressive disintegration of the sensate culture and finally the first blush of the emergence and growth of a new idealistic sociocultural order This volume is perhaps most famous for revealing Sorokin s remarkable efforts to understand the relationship of war and peace to the process of social and political change Contrary to received wisdom he shows that the magnitude and depth of war grows in periods of social cultural and territorial expansion by the nation In short war is just as often a function of development as it is of social decay This long unavailable volume remains one of the major touchstones by which we can judge efforts to create an international social science There are few areas of social or cultural life that are not covered from painting art and music to the ethos of universalism and particularism These are terms which Sorokin introduced into the literature long before the rise of functional doctrines For all those interested in cultural and historical processes this volume provides the essence of Sorokin s remarkably prescient effort to achieve sociological transcendence by taking *Annals of the History and Philosophy of Biology* 10/2005 ,2006 The name DGGTB Deutsche Gesellschaft f r Geschichte und Theorie der Biologie German Society for the History and Theory of Biology reflects recent history as well as German tradition The Society is a relatively late addition to a series of German societies of science and medicine that began with the Deutsche Gesellschaft f r Geschichte der Medizin und der Naturwissenschaften founded in 1910 by Leipzig University s Karl Sudhoff 1853 1938 who wrote We want to establish a German society in order to gather German speaking historians together in our special disciplines so that they form the core of an international society Yet Sudhoff at this time of burgeoning academic internationalism was quite willing to accommodate the wishes of a number of founding members and drop the word German in the title of the Society and have it merge with an international society The founding and naming of the Society at that time derived from a specific set of historical circumstances and the same was true some 80 years later when in 1991 in the wake of German reunification the Deutsche Gesellschaft f r Geschichte und Theorie der Biologie was founded From the start the Society has been committed to bringing studies in the history and philosophy of biology to a wide audience using for this purpose its Jahrbuch f r Geschichte und Theorie der Biologie Parallel to the Jahrbuch the Verhandlungen zur Geschichte und Theorie der Biologie has become the by now traditional medium for

the publication of papers delivered at the Society's annual meetings In 2005 the Jahrbuch was renamed Annals of the History and Philosophy of Biology reflecting the Society's internationalist aspirations in addressing comparative biology as a subject of historical and philosophical studies **UGC NET Paper 2 \_ Philosophy Volume - 2** Mr. Rohit Manglik,2024-03-04
