Evolving Self Confidence:

Evolving Self Confidence Terry Dixon, 2007 This text brings the reader a new understanding of anxiety disorders and depression and shows how we can cure the very cause of these problems not just the symptoms It takes us on a journey from childhood to adult through the experiences thoughts and feelings that can lead to the development of these problems The Evolving Self Robert KEGAN, 2009-06-30 The *Evolving Self* focuses upon the most basic and universal of psychological problems the individual's effort to make sense of experience to make meaning of life According to Robert Kegan meaning making is a lifelong activity that begins in earliest infancy and continues to evolve through a series of stages encompassing childhood adolescence and adulthood The *Evolving Self* describes this process of evolution in rich and human detail concentrating especially on the internal experience of growth and transition its costs and disruptions as well as its triumphs At the heart of our meaning making activity the book suggests is the drawing and redrawing of the distinction between self and other Using Piagetian theory in a creative new way to make sense of how we make sense of ourselves Kegan shows that each meaning making stage is a new solution to the lifelong tension between the universal human yearning to be connected attached and included on the one hand and to be distinct independent and autonomous on the other The *Evolving Self* is the story of our continuing negotiation of this tension It is a book that is theoretically daring enough to propose a reinterpretation of the Oedipus complex and clinically concerned enough to suggest a variety of fresh new ways to treat those psychological complaints that commonly arise in the course of development Kegan is an irrepressible storyteller an impassioned opponent of the health and illness approach to psychological distress and a sturdy builder of psychological theory His is an original and distinctive new voice in the growing discussion of human development across the life span
