Evies First Magic Lesson:

Evie's First Magic Lesson Amy J. Hancock, 2009-10-05 *Evie's First Magic Lesson* is a middle grade novel set in an entirely imaginary world. It follows the adventures of Evie and Bridget as they discover that everyone has talents if they would only learn to use them. From the Back of the book: Things used to be different. People known as rays from each of the five major groups worked together. The Sourays were able to manipulate the physical world known commonly as using magic. The Emerays were great scientists and teachers. The Vedarays could see a person's heart. The Anirays could communicate with animals. And the Physirays had physical abilities beyond imagination. Even with all these differences, it was a time of progress and cooperation. But it didn't last. The current king is a Souray. He believes that anyone who cannot use magic should be separated and uneducated. The years have erased memories and planted permanent ideas of inherent inequality. The time for change has come again. In a small village distanced from all of these politics, a young girl holds a secret that could help return this world to the way it once was. She has the ability to remove the king from power, and he has only just discovered she exists.

Evie and the Magic Telescope Phil Rosenberg, 2015-11-17 When Evie spends her summer vacation on the family's farm with her grandparents, she discovers much more than she figured she would when the summer began. Grandpa introduces her to the wonder and mystery of the nighttime sky. He shows her how to use his telescope. Like a ship that travels to unknown and distant shores, the telescope has a name: Angelina. Evie and the Magic Telescope tells the story of Evie's adventures with Angelina. She turns from Evie the Shy into Evie the Hunter and Explorer. When she returns to school in the fall, she has changed. Everyone sees it. She sets aside her worries about the future. Like a true hunter and explorer, she revels in her clear and passionate vision of what lies ahead of her. Written especially for young people in their late elementary school and middle school years, *Evie and the Magic Telescope* will appeal to older readers as well. Everyone who longs to find adventure in unlikely places and to discover a new and exciting path for their lives will enjoy finding out what happens when Evie meets Angelina.

Lessons in Enchantment Patricia Rice, 2020-03-24 Can a straitlaced engineer, three psychic children, and a lonely witch find love? The daughter of an earl, Lady Phoebe Malcolm Duncan, has the ability to talk to animals. She longs to be a veterinarian, but education requires more coin than she possesses. When the walls of her home come tumbling down, she has to take two steps back to servitude. Inventor Andrew Blair keeps his nose to the grindstone, knowing his friends and family depend on his talent for turning machines into money. He is about to embark on his biggest investment yet: rebuilding crumbling tenements in Old Town Edinburgh until his beleaguered cousin begs him to hide his precocious children from a killer. When the School of Malcolms sends Lady Phoebe as governess for his wards, Drew's well-ordered beliefs are upended. Ladies don't live in slum housing like the one he's about to tear down, nor do they command ravens or encourage children to talk to dead mothers. It might take a vengeful ghost to show the disparate pair how to join forces, fight their fears, and their enemies, and reveal a path to love.
