Exploring And Proclaiming The Apostles Creed:

Exploring and Proclaiming the Apostles' Roger Van Harn, 2004-09-14 Foreword by Geoffrey Wainwright Doctrinal preaching has fallen on hard times in recent years Exploring and Proclaiming the Apostles Creed seeks to stimulate renewed interest in and provide useful models of Christian proclamation that is truly rooted in the central tenets of the faith Using the Apostles Creed as a template for doctrinal confessional preaching this book draws together an ecumenical cast of respected biblical scholars and preachers who explain the creed and demonstrate its preaching possibilities Each of the book's fifteen chapters consists of an essay that explores and illuminates one of the creed's articles of faith followed by a scintillating sermon that models how that article can be preached as good news today Contributors Walter R Bouman Richard A Burridge Philip W Butin Gabriel Fackre David F Ford Colin Gunton Richard B Hays Craig C Hill Scott E Hoezee Leslie J Hoppe George Hunsinger Scott Black Johnston James F Kay Richard A Lischer Thomas G Long Lois Malcolm Daniel L Migliore Richard A Norris Jr Steven D Paulson Cornelius Plantinga Cynthia L Rigby Fleming Rutledge William M Shand III Marguerite Shuster Wm C Turner Robert Louis Wilken Ralph C Wood Susan K Wood Frances M Young Robin Darling Young The God We Proclaim John Hughes, Andrew Davison, 2017-12-19 Throughout history Christians have found the summary of their faith in the three ancient creeds The God We Proclaim explores that faith as it is found in the shortest of them the Apostles Creed The contributors are among Britain's foremost Christian communicators and teachers Written with an infectious enthusiasm for theology The God We Proclaim is ideal for anyone seeking to understand the Christian faith either individually or in a church or student study group It is based on a set of sermons delivered in the chapel of Jesus College Cambridge which surveyed the foundations of Christianity Dorothy L Sayers 1893-1957 wrote in her essay The Dogma is the Drama that people assume that if churches are empty it is because preachers insist too much upon doctrine or dull dogma as they disapprovingly call it Sayers knew that the opposite is true It is the neglect of dogma that makes for dullness The Christian faith is the most exciting drama that ever staggered the imagination of man and the dogma is the drama **Colin Gunton's Trinitarian Theology of Culture** Andrew Picard, 2024-06-27 Whilst upholding some of the criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbriefe in Gunton reception that assumes his early classic works The One the Three and the Many and The Promise of Trinitarian Theology 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The

study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community

Gunton,2007-07-10 Colin Gunton was world renowned as a scholar systematic theologian and Reformed minister however he never lived to fulfill his ambition to write a book devoted solely to Barth Gunton on Barth is an in depth analysis derived from the lecture course he gave most years at King s College London something of an annual institution it was aimed at undergraduates though the majority of those attending were MA PhD students and researchers from America and Germany Approximately half of the work consists of quotations representing an essential understanding Colin was a creative lecturer although he worked from notes he gave space to the free rein of his mind particularly when fielding questions or trying to analyze a particular strand of Barth s thought Colin s understanding and expertise was world renowned He did not take all Barth wrote uncritically he struggled and wrestled with this giant of twentieth century theology as he always said at the beginning of the course Not everyone buys into Barth I don t all the way along the line as I get older I get more and more dissatisfied with the details of his working out of the faith over the years I think I have developed a reasonable view of this great man who is thoroughly exciting and particularly I can guarantee if you do this course that you will be a better theologian by the third year whether or not you agree with him he is a great man to learn to think theologically with

Reformed Theology Michael Allen,2010-09-02 Introduces Reformed theology by surveying the doctrinal concerns that have shaped its historical development **Proclaim the Wonder** Scott Hoezee,2019-07-11 Does the rise of science imply the decline of faith Should preachers protect their flocks from the inroads of scientific naturalism Or is an informed scientific view of the universe compatible with Christian belief even a strong source of support for it This world belongs to God and the pulpit is a crucial vehicle for celebrating science s contribution to the understanding of creation Beginning with a defense of the authority of Scripture Scott Hoezee distinguishes between science as a physical field of inquiry and scientific naturalism which often turns science into an atheistic religious or philosophical point of view After establishing the fact that there is no necessary clash between theology and science Hoezee summarizes some of the more recent discoveries in the fields of

physics and cosmology as well as current ideas about the biological and mental nature of human beings He highlights intriguing scientific facts and points to the theological interpretations that can be drawn from them Proclaim the Wonder offers specific suggestions and strategies for integrating science into preaching and provides sample sermons based on key biblical texts
