Handbook of Aging and the Social Sciences Kenneth Ferraro, Deborah Carr, 2021-01-09 Handbook of Aging and the Social Sciences Ninth Edition provides a comprehensive synthesis of the latest research findings in the science of aging The complexities of population dynamics cohort succession and policy changes modify the world and its inhabitants in ways that must be vigilantly monitored Completely revised this edition not only includes the foundational classic themes of aging research but also a rich array of emerging topics and perspectives that advance the field in exciting ways New topics include families immigration social factors and cognition caregiving neighborhoods and built environments natural disasters religion and health and sexual behavior among others This book will serve as a useful resource and an inspiration to those searching for ways to contribute to the aging enterprise Includes aging topics at both the micro and macro level Addresses the intersection of individual and aggregate factors Covers a spectrum of disciplines including demography economics epidemiology gerontology political science psychology social work sociology and statistics Brings together the work of almost fifty leading scholars to provide a deeper understanding of aging **Elder Care Journey** Laura Katz Olson, 2016-04-22 Combining expert knowledge and first hand experience a noted elder care researcher confronts the long distance care of her own mother For millions of Americans caregiving is the new normal For Laura Katz Olson a respected researcher of long term care for the aging *Elder Care Journey* chronicles the disruption of her world and how it is upended by the ever increasing long distance needs of her own mother A healthy Senior Olympics medal winner Olson s mother is slowly and steadily incapacitated by Parkinson s disease and a gradual loss of vision Thrust into a long distance caregiving role Olson finds her previous academic notions about assisting a frail parent increasingly at odds with the reality of the lived experience In a narrative full of ah ha moments tears sighs and outrage that will be familiar to many Olson opens a window into the nursing home and home care industries that consume much in the way of taxpayer dollars but often fail to deliver quality care Olson s personal story vividly demonstrates not only the overwhelming bureaucratic barriers faced by care dependent seniors but also their beleaguered adult children s attempts to ensure their parents health safety and well being After losing two siblings Laura Katz Olson is left singularly responsible for her physically active and lively mother Dorothy a thousand miles away both young at heart and eagerly bicycling everywhere but increasingly limited by the normal process of aging Being an expert on aging and health care Olson is at first confident as she tries to let her mother age in place More than anyone she believes she should know what to do Shuttling between Florida and Pennsylvania Olson settles into a crushing routine and with each visit she finds incremental downward change in her mother s health Pulled by daughterly guilt at times but also a wellspring of love Olson is frank about the resentment she sometimes experiences With a unique perspective that

links the systemic flaws in our policy approach to elder care to real world experience Olson exposes the challenges we all face or are likely to face More than a personal story but nevertheless an extremely compelling one the book should be read by those confounded and frustrated and by those without direct knowledge of what quietly repeats itself millions of times a day Miriam Laugesen Department of Health Policy and Management Columbia University In Elder Care Journey Laura Olson tells the riveting story of helping her aging disabled mother navigate the system of long term services and supports A renowned scholar of aging and long term care policy Dr Olson was nevertheless unprepared for the daily frustrations involved in confronting a bewildering array of obstacles deceptions burdensome and repetitive procedures and paperwork and catch 22s ranging from the annoying to the downright dangerous She shows how well intentioned policies can fall far short of meeting people s needs especially for those in greatest need in a system based on fragmented interests and private sector profit maximization Combining scholarly expertise with personal experience she ends the book with a detailed but highly accessible analysis of the long term care system and how it could be improved to the benefit of both taxpayers and beneficiaries This book is a compelling read for policymakers and for students and scholars of health care and social welfare policy highly recommended for undergraduate and graduate courses The author s experiences also provide helpful advice to caregivers on what to expect and how to deal with it as well as reassurance that they are not alone Christine L Day University of New Orleans If a society is judged by how well it treats its most vulnerable members Laura Katz Olson a prominent health policy scholar demonstrates that we have a long way to go in how we serve frail and disabled elders in need of long term services and supports at the end of their lives Olson develops a compelling narrative that describes the subtle and not so subtle indignities imposed on elders and their caregivers navigating the complex maze of health and social service systems at their hour of greatest need Even an expert such as Olson struggled in light of the challenges posed by these impediments By connecting her own personal journey to the larger societal challenges within which her struggles are embedded Olson makes a significant contribution to the literature that should be required reading for scholars practitioners and policymakers looking to advance the welfare of the nation s most vulnerable citizens Edward Alan Miller author of Block Granting Medicaid A Model for 21st Century Medicaid Reform This page turner is at once a tender tale of a daughter s devotion and a stinging indictment of the hugely complex and wholly inadequate American long term care system That an elder care expert can barely navigate the Byzantine web of public and private insurance and services for her disabled mother is alarming enough Truly horrific are the system s shortcomings and the increasing role that for profit providers play fleecing and even abusing their customers A startling wake up call Andrea Louise Campbell author of Trapped in America s Safety Net One Family s Struggle
