

Convert Manual-type Intelligent/ Conventional Life Safety Control Panel

Features

- One to four Signature loops – each with a capacity of 128 intelligent devices – PCATS up to 98 conventional circuits
- Compatible with two- and four-wire smoke detectors
- Combines the Signature Intelligent releasing module with Signature multi-beam detectors for reliable suppression
- Fail-safe mode ensures uncompromised reliability
- Class A (Style 7) or Class B (Style 4) wiring options
- Capacity for eight remote annunciators
- Four built-in system relays
- Optional dual flow diode supports Contact ID and 4-2 Formals
- Three methods of programming: QuickStart™ “notebook,” host panel and personal computer (PC)
- Supports optional barcode scanner for direct device data entry
- Two optional banks of 32 front panel pushbuttons with dual LEDs
- Up to 32 adjustable pre-alarm settings for Signature smoke detectors
- Red or green cabinets in two sizes for surface or recessed mounting
- Large 14-line (224 characters) backlit LCD display
- Four password levels, plus priority access key method
- Message scrolling for event logs or any individual message
- Alarm sensitivity by time of day or manual selection
- 1,000 event history buffer, plus alarm history counter
- Range Power Supply, 4.75 amps available for external use
- UL60362-49 compliant
- Complete utility identifies system changes and simplifies testing

Description

EST's Q224 QuickStart life safety control panel provides complete manual and intelligent addressable circuits in a single intelligent control panel. Designed for easy setup and simple installation, QuickStart lives up to its name in every respect. Q224's exclusive QuickStart setup function, and the option of configuring the

panel using conventional host panel programming or from a PC, makes short work of system setup. Device codes can be in as little as one minute thanks to Q224's built-in barcode scanner port. A simple pass of the optional scanner is all it takes to store device information in the QuickStart database. The scanner can also be used for quick and easy test entry when assembling system messages.

Q224's setup routine is deceptively simple, considering the system's robust features and broad capacity. Supporting up to 1,000 intelligent detectors and modules, Q224 takes full advantage of EST's exclusive Signature Series technology, which includes electronic addressing, automatic device mapping, environmental compensation, multi-beam detector lock.

As a hybrid system, Q224 combines Signature Series support along with up to 98 conventional Class B or a combination of 49 Class A and Class B initiating circuits. Compatible with either two- or four-wire detectors, these circuits also provide built-in support for EST's EC family of conventional detectors.

QuickStart is designed to leave plenty of room for system expansion. Option cards make the Q224 easily accessible. Q224 mounting rails, three banks of LEDs, a timer, auxiliary relays, and additional system capacity. The Q224 also supports as many as eight remote annunciators and up to 98 programmable front panel pushbuttons with dual LEDs for system control and display.

Q224 is as simple to operate as it is to set up. Its large 14-line backlit LCD display provides easy-to-understand details, including up to 1,000 system events, while bright green status LEDs emphasize tactile control buttons present the user with a clear, at-a-glance interface. Four password levels, dual control and information screens for authorized personnel. A priority access key method gives Level 2 access, without a password, to management and service personnel.
