Joseph S. Krajcik, Charlene M. Czerniak, 2014-01-23 *Teaching Science in Elementary and Middle School* offers in depth information about the fundamental features of project based science and strategies for implementing the approach. Because project based science is a method aligned with what is known about how to help all children learn science, it not only helps students learn science more thoroughly and deeply, it also helps them experience the joy of doing science. Project based science embodies the principles in *A Framework for K-12 Science Education* and the Next Generation Science Standards. Features include long term interdisciplinary, student centered lessons, scenarios, learning activities, and Connecting to Framework for K-12 Science Education textboxes. More concise than previous editions, the Fourth Edition offers a wealth of supplementary material on a new Companion Website including many videos showing a teacher and class in a project environment. **The Go-To Guide for Engineering Curricula, PreK-5** Cary I.
